Preface

In order to proceed in a timely fashion, this Program of Studies was prepared by the Mansfield High School Administration and teaching staff based on the current conditions. The course offerings presented here are subject to review, revision, change and deletion. Please understand that a student's selection of a course does not guarantee the availability of that course for the 2023-24 school year.

Maintaining subject continuity and curriculum are of paramount importance. We will make every effort to offer as many course offerings as possible by trying to utilize our faculty in the most efficient manner.

A Grade 9-12 Program of Studies may also be accessed online at www.mansfieldschools.com/mhs.

The Mansfield Public Schools prohibits unlawful discrimination, harassment (including sexual harassment), and retaliation against anyone based on race, color, age, disability, sex (including pregnancy, pregnancy-related conditions, or recovery from these conditions, including but not limited to, lactation), sexual orientation, gender identity or expression, religion or religious belief, national origin, ethnicity, ancestry, retaliation, marital status, genetic information, veteran or military status, limited English proficiency, homelessness, or any other class of individuals protected from discrimination under state or federal law in education, admission, access to or treatment in, its programs, services, benefits, activities, and terms and conditions of employment.

A MESSAGE FROM THE PRINCIPAL

Dear Students,

This booklet was prepared to help you choose which courses you will take next year. Enrolling in courses that support both graduation requirements and your post-secondary plans and goals is extremely important. Please closely examine the offerings described within and consult with your parents/guardians, teachers, and counselor. **Before making your final selections, please give strong consideration to your personal interests, your willingness to take on academic challenges, and your post-secondary goals.**

Sincerely,

Russell
Booth
Principal

Mansfield High School Core Values and Beliefs About Learning

The Mansfield High School community is committed to life-long learning with the understanding that it is essential to meeting the challenges of 21st century living. We want our students to be well equipped to make positive contributions to the local, national, and international communities.

We believe that students learn best when:

- they are in a safe, supportive environment which promotes life-long learning, problem solving, creativity, curiosity and independent thinking.
- they feel ownership of their own learning and are empowered to set goals and act in ways that are supportive of their own growth.
- they are willing to make mistakes to help them learn.
- they are eager to work with others to take on any challenges.
- the learning environment provides personalized learning opportunities that encourage self-discovery, self assessment and risk-taking.

We believe that students learn best from teachers who:

- are knowledgeable, enthusiastic and invested in their content *area*.
- communicate high expectations clearly and consistently.
- demonstrate flexibility and adaptability to learning conditions and to students' needs.
- use a variety of instructional and assessment strategies based on current research and best practices to engage students in their learning.

Furthermore, students will benefit from a community that:

- encourages a partnership between school, parents and community.
- recognizes and respects diversity.
- supports learning through appropriate funding for relevant technology and materials, through adequate staffing that ensures smaller class sizes, and through opportunities for effective professional development.

MANSFIELD HIGH SCHOOL 21st CENTURY LEARNING EXPECTATIONS

Academic Expectation #1: Student will communicate effectively in writing and in speech

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Argument Development	Argument is presented in an organized, logical progression. The thesis is concise, easily identifiable, original, insightful, clearly stated, and argumentative. Thesis demonstrates complexity of the argument presented. Argument considers alternative points of view.	Argument is presented in an organized, logical progression. The thesis is concise, easily identifiable, original, insightful, clearly stated, and argumentative. Thesis demonstrates complexity of the argument presented.	*May contain 1-2 of the following deficiencies: Argument may not be presented in an organized, logical progression. Thesis may not be concise, easily identifiable, original, insightful, clearly stated, and argumentative.	*May contain 3 or more of the following deficiencies: Argument may not be presented in an organized, logical progression. Thesis may not be concise, easily identifiable, original, insightful, clearly stated, and argumentative.
Organization and structure	Presents arguments and evidence in a focused, logical, and organized fashion that enhances the ability to understand the argument.	Presents arguments and evidence in a focused, logical, and organized fashion that enhances the ability to understand the argument.	Presents arguments and evidence in a somewhat logical and organized fashion that may inhibit the effectiveness of the argument.	Arguments and evidence are not focused, logical, or organized. Significantly limits the ability to understand the argument.
Supporting Evidence	Major argument is consistently supported with relevant evidence. Includes multiple appropriate examples to support the argument. Evidence considers alternative points of view.	Major argument is consistently supported with evidence. Includes multiple examples to support the argument.	Argument not supported consistently with evidence. May contain unsupported generalizations. May fail to effectively connect argument to evidence.	Argument is not supported with sufficient or relevant evidence. Little or no connection between evidence and argument.
Idea Development	Displays clear and insightful focus. Consistently uses specific, relevant, and accurate details. Develops topic insightfully with clear connections.	Displays clear and appropriate focus. Generally uses relevant and accurate details. Some connections and insights are present.	Displays somewhat clear and generally appropriate focus. Uses some relevant and accurate details but also includes details that are limited, off-topic, or too general. Connections and insights are missing.	Displays unclear and/or inappropriate focus. Uses few or no relevant or accurate details to develop topic. May have extensive repetition.
Word Choice	Demonstrates mastery of language; employs a broad range of words, which have been carefully chosen and thoughtfully placed for impact.	Demonstrates appropriate use of language; employs a variety of words that are functional and appropriate to audience and purpose.	Demonstrates inconsistent control of appropriate language; language lacks precision and variety, or is inappropriate to audience and purpose.	Demonstrates minimal control of language; language is repetitive and/or misused, taking away from meaning and impact.
Conventions	Demonstrates strong control of conventions of standard written English (spelling, grammar and usage, capitalization, punctuation). Errors are few and minor.	Demonstrates control of conventions of standard written English (spelling, grammar and usage, capitalization, punctuation.) Minor errors do not impede readability.	Demonstrates a limited control of standard written English (spelling, grammar and usage, capitalization, punctuation). Errors begin to impede readability.	Demonstrates little or weak control of standard written English (spelling, grammar and usage, capitalization, punctuation). Frequent errors impede readability.
Oral Communication	Student spoke clearly, effectively, and confidently (e.g. volume, pace, articulation, eye contact). Student is informative and engaging.	Student spoke clearly, effectively, and confidently (e.g. volume, pace, articulation, eye contact).	Volume, pace, articulation, or lack of eye contact may detract from effectiveness	Volume, pace, articulation, or lack of eye contact detracts from effectiveness

Academic Expectation #2: Student reads text and other media for a variety of purposes.

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Recalling Main Ideas and Decoding	Identifies the main idea of the source and can determine and justify the most persuasive or effective arguments presented in the source.	Identifies the main idea of the source and can identify the main arguments presented in the source in their own words.	Can consistently select main idea of the source and main arguments in the source from a list of several plausible options.	Can select main idea of the source and main arguments from the source when presented with a limited list of options or with additional teacher assistance or support.

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Comprehension of context, audience, and point of view	Identifies context, audience, point of view (bias) and can summarize each in their own words.	Consistently identifies context, audience, point of view (bias).	Can identify context, audience, and point of view (bias) when presented with a list of several plausible options.	Can identify context, audience, and point of view (bias) when presented with a limited list of options or with additional teacher assistance or support.
Analyzing and Drawing Conclusions	Draws inferences from the source including its purpose, the motives of the author, and its relationship to other sources.	Identifies the strengths and weaknesses of the source and can evaluate the validity of the arguments presented in the source.	Can identify strengths and weaknesses of the source and evaluate the validity of the arguments in the source when presented with a list of several plausible options.	Can identify strengths and weaknesses of the source and evaluate the validity of the arguments of the source when presented with a limited list of options or with additional teacher assistance or support.
Evaluation and Synthesis of Source(s)	Creates and defends a thesis statement using the source and incorporates a counter-argument from a different source. Can propose original modifications to the source and create a plausible theory on the impact of those modifications.	Creates and defends a thesis statement using the source(s) Can make connections to other sources or information not specifically addressed in the source.	Can create and/or defend a thesis statement using the source when provided with some support. Can make connections to other sources or information not specifically addressed in the source when given some teacher assistance or support.	Can create and/or defend a thesis statement using the source when given extensive teacher assistance and support. Can make connections to other sources or information not specifically addressed in the source when given extensive teacher assistance and support.

Academic Expectation #3: Student will solve problems using creative and critical thinking skills

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Explains Issue/Problem	Demonstrates full/detailed understanding of the problem. Includes well-developed justifications/explanations that indicate their comprehension.	Demonstrates an understanding of problem and provides justifications which indicate comprehension.	Demonstrates a basic or partial understanding of the problem/issue and provides brief, underdeveloped explanations.	Either demonstrates minimal understanding of the problem and/or provides incorrect or no justifications/ explanations.
Gathers Information and Makes Connections	Consults a variety of resources and selects the most relevant. Student demonstrates thorough understanding of the process and shows a strong connection amongst their ideas.	Consults a variety of resources and selects the most relevant. Student demonstrates a developing understanding of the process and it is evident that they have made connections between their ideas.	Consults a limited variety of resources and/or does not select the most relevant. Unclear if student fully understands the issue; has made some connections between their ideas.	No evidence provided that resources were used. Has not justified or demonstrated how ideas are connected.
Work: Formulates a Model, Design, Concept or Hypothesis	Shows extensive knowledge and details of issues, including potential difficulties, influences and areas for error. Shows evidence of thoughtfulness and reasoning. Shows sophisticated ability to synthesize ideas with fresh, innovative thoughts.	Shows knowledge of the MAJOR aspects of the issue regarding contexts, influences, difficulties and assumptions relating to issue. Shows evidence of reasoning and demonstrates the ability to combine ideas to develop the concept.	Has a partial understanding of the issue but does not address areas of potential difficulty, influences or cause for error. Combines ideas to develop the concept, yet does not demonstrate reasoning.	Has not demonstrated understanding of issue. Has not combined ideas or demonstrated reasoning.
Analyze, Re-Evaluate, Reflect	Provides a clear, thorough, detailed description of the work and process. Includes thoughtful reflection of the work as presented. Student accounts for and explains possible obstacles that may have affected their final outcome.	Provides a clear description of the work and process and includes some self-reflection. Student identifies possible obstacles that may have affected their final outcome.	Has a partial description of their work and process. More development of their reflection, including discussion of possible hindrances they encountered may be needed.	Provides a minimal or insufficient description of their work and/or has not demonstrated reflection of their process.

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Communication of results	Draws well informed, logical, and practical conclusions and provides justification for their findings. Proposes novel ideas and solutions to the issue/problem to further expand or improve upon their work.	Draws informed, thoughtful, and practical conclusions. Provides convincing evidence to support points. Proposes sensible solution.	Draws conclusions that may be inconsistent with reasoning. Proposes solutions to problems that may not be realistic.	Draws conclusions and solutions that are questionable or incomplete.

Academic Expectation #4: Students use curiosity and imagination to create solutions

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Listening and Awareness	Consistently demonstrates active listening skills and ignores all distractions. Demonstrates enthusiasm for reading and viewing new information presented in class and explores learning beyond the classroom.	Consistently demonstrates active listening skills and ignores all distractions. Demonstrates willingness for reading and viewing new information presented in class and explores learning beyond the classroom.	Demonstrates listening skills and isn't easily distracted. Demonstrates willingness for reading and viewing new information presented in class.	Attempts to listen and is sometimes distracted. Attempts to read and view new information presented in class.
Creative Thinking	Displays a careful, innovative examination for a particular task or issue. Displays a wide range of original ideas, brainstorming, and thought processes clearly linked to a particular task or issue.	Displays a careful, innovative examination for a particular task or issue. Displays original ideas, brainstorming, and thought processes clearly linked to a particular task or issue.	Displays a limited ability to examine a particular task or issue. Displays a limited ability to brainstorm and process information linked to a particular task or issue.	Attempts to examine a particular task or issue. Attempts to brainstorm and process information linked to a particular task or issue.
Creative Application	Selects imaginative and unique potential applications, skillfully to complete a task or address an issue. Consistently evaluates and refines/revises ideas to present a best-possible solution.	Selects imaginative potential applications skillfully to complete a task or address an issue. Evaluates and refines/revises ideas to present a best-possible solution.	Selects potential applications to complete a task or address an issue. Refines/revises ideas to present a best possible solution.	Attempts to select applications to complete a task or address an issue Attempts to refine and revise ideas to present a better solution

Academic Expectation #5: Student will use technology to obtain, organize and communicate information effectively and ethically

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Digital Citizenship	Student cultivates and manages their digital identity and reputation at all times, and is aware of the permanence of their actions in the digital world. Student consistently makes an effort to use technology and information responsibly as defined in the District Responsible Use Policy. Strives to model responsible use for other students.	Student frequently manages and cultivates their digital identity and reputation, and makes an effort to be aware of the permanence of their actions in the digital world. Student frequently makes an effort to use technology and information responsibly as defined in the District Responsible Use Policy.	Student sometimes manages and cultivates their digital identity and reputation, yet needs to try harder to be aware of the permanence of their actions in the digital world. Student sometimes makes the effort to use technology and information responsibly as defined in the District Responsible Use Policy.	Student does not yet manage and cultivate their digital identity and reputation, and needs to strive to be aware of the permanence of their actions in the digital world. Student rarely makes an effort to use technology and information responsibly as defined in the District Responsible Use Policy.
Empowered Learning	Always demonstrates awareness of, and makes a strong effort to choose, use and troubleshoot varied and appropriate digital tools for problem solving, communicating, collaborating and presenting. Student is enthusiastic about transferring knowledge to explore emerging technologies.	Frequently demonstrates awareness of, and makes an effort to choose and use varied and appropriate digital tools for problem solving, communicating, collaborating and presenting. Student is able to transfer knowledge to explore emerging technologies.	Student must strive harder to be more aware of, and choose and use appropriate digital tools for problem solving, communicating, collaborating and presenting. Student is beginning to try to explore emerging technologies.	Student does not yet strive to be aware of, or to choose and use appropriate digital tools for problem solving, communicating, collaborating and presenting. Student does not yet persist in exploring emerging technologies.

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Information Literacy	Student has clearly worked hard to curate a variety of print and digital sources for research that have been evaluated for accuracy, bias and scholarship. As a result, sources show relevance, depth and balance.	Student has worked to curate a variety of print and digital sources for research that have been evaluated for accuracy, bias and scholarship. As a result, sources mostly show relevance, depth and balance.	Student has curated only from digital sources for research and made a brief effort to evaluate those sources for accuracy, bias and scholarship. As a result, sources do not always show relevance, depth and balance.	Student does not yet make the effort to attempt to curate sources for research that have been evaluated for accuracy, bias and scholarship. As a result, sources show little relevance, depth and balance.
Information Management and Communication	Student makes a strong effort to manage and organize information, and to select from a variety of tools in order to communicate complex ideas clearly and effectively. As a result student is able to publish or present content that is directed and appropriate for learning, personal or workplace needs.	Student makes a consistent effort to manage and organize information, and to select from appropriate tools in order to communicate complex ideas effectively. As a result student is frequently able to publish or present content that is directed and appropriate for learning, personal or workplace needs.	Student sometimes makes an effort to manage and organize information using a limited selection of tools when trying to communicate ideas. As a result, student does not always publish or present content that is directed and appropriate for learning, personal or workplace needs.	Student does not yet make an effort to manage or organize information in more than a superficial way. As a result student presentations and publications do not communicate intended ideas clearly.

Academic Expectation #6: Social and Civic

	Exceeds Proficient	Proficient	Approaching Proficient	Beginning Development
Contributes positively to a diverse learning culture.	Leads and inspires others to contribute positively in a diverse learning environment.	Consistently demonstrates respect for self and others in a diverse learning environment.	Occasionally demonstrates respect for self and others.	Beginning to demonstrate respect for self and others.
Demonstrates personal responsibility	Promotes making positive choices, setting short and long term goals and learning from mistakes.	Consistently makes positive choices, sets short and long term goals and learns from mistakes.	Occasionally makes positive choices, sets short and long term goals and learns from mistakes.	Beginning to make positive choices, sets short and long term goals and learns from mistakes.
Actively collaborates with peers	Promotes a collaborative culture by cultivating productive conversations through listening, responding and questioning.	Consistently participates in productive conversations through listening, responding, and questioning.	Occasionally participates in productive conversations through listening, responding, and questioning.	Beginning to participate in productive conversations through listening, responding, and questioning.

ACCREDITATION STATEMENT

Mansfield High School is accredited by the New England Association of Schools and Colleges, Inc. (NEASC), a non-governmental, nationally recognized organization whose affiliated institutions include elementary schools through collegiate institutions offering post-graduate instruction.

Accreditation of an institution by the NEASC indicates that it meets or exceeds criteria for the assessment of institutional quality periodically applied through a peer group review process. An accredited school or college is one which has available the necessary resources to achieve its stated purposes through appropriate educational programs, is substantially doing so, and gives reasonable evidence that it will continue to do so in the foreseeable future. Institutional integrity is also addressed through accreditation.

Accreditation by the NEASC is not partial but applies to the institution as a whole. As such, it is not a guarantee of the quality of every course or program offered, or the competence of individual graduates. Rather, it provides reasonable assurance about the quality of opportunities available to students who attend the institution.

Inquiries regarding the status of an institution's accreditation by the NEASC should be directed to the administrative staff of the school or college. Individuals may also contact the NEASC:

SUMMARY OF REGULATIONS PERTAINING TO STUDENT RECORDS

In January 1975, the State Board of Education adopted regulations pertaining to Student Records. The regulations are designed to insure parents' and students' rights of confidentiality, inspection, amendment, and destruction of student records, and to assist school authorities in their responsibility for the maintenance of student records.

The regulations divide the record into two sections: the transcript and the temporary record. The transcript includes only the minimum information necessary to reflect the student's educational progress. This information includes name, address, course titles, grades, and grade level completed. The transcript is kept by the school system for at least sixty years after the student leaves the school.

The temporary record contains other useful information maintained by the school about the student as they proceed through the system. This may include such items as standardized test results, class rank and quality point average, letters of recommendations, student resumes (if provided), evaluations, comments by teachers or counselors, and other similar information pertinent to student progression. The temporary record is destroyed five years after the student leaves school.

Massachusetts law (General Laws Chapter 71, Section 34H) specifies procedures that govern access to student records by parents who do not have physical custody of their children. For more information, please contact the school administration.

A parent or a student who has entered the ninth grade, or is at least 14 years old, has the right to inspect all portions of their school record upon request.

NON-DISCRIMINATION STATEMENT

The Mansfield Public Schools prohibits unlawful discrimination, harassment (including sexual harassment), and retaliation against anyone based on race, color, age, disability, sex (including pregnancy, pregnancy-related conditions, or recovery from these conditions, including but not limited to, lactation), sexual orientation, gender identity or expression, religion or religious belief, national origin, ethnicity, ancestry, retaliation, marital status, genetic information, veteran or military status, limited English proficiency, homelessness, or any other class of individuals protected from discrimination under state or federal law in education, admission, access to or treatment in, its programs, services, benefits, activities, and terms and conditions of employment.

The District's Title IX and Civil Rights Compliance Officer is Michael Connolly he may be reached at either 508-261-7500 or michael.connolly@mansfieldschools.com.

COURSE SELECTION PROCESS

Proper course selection creates the foundation for a successful high school career. At Mansfield High School, the course selection process is given the utmost priority by our faculty and administration. The process requires input and cooperation from students, parents, teachers and school counselors. Courses should be chosen with a great deal of thought and care.

Courses should be selected with the intent of achieving academic success while challenging individual personal development. Students must enroll in a minimum of 50% core-academic courses each year. It is recommended that college-bound students enroll in a minimum of 75% core-academic courses each year.

Students and parents considering college should understand that colleges vary greatly in selectivity and basic course requirements. When considering colleges, students and their parents should be aware of each school's academic requirements. Students and parents should consult with the School Counseling staff regarding their plans.

Families are strongly encouraged to follow the recommendations of teachers as to course placement for the coming school year. We understand that there are occasions when parents and students are not in agreement with the recommendation of their teacher and choose to request a change in the recommendation. Students will be provided with an electronic copy of teacher recommendations for core academic courses at the start of the course registration process. Students **must** consult with their teacher if they are in disagreement with the recommendation to better understand the recommendation as well as to self-advocate for a potential change. At this time the teacher will provide the student with the **Course Change Form**. If the teacher agrees with the change in course, they will sign the form and the student will return the completed form to the counselor. If the teacher is not in agreement and the student wishes to continue to pursue the change, the student must complete the **Course Change Form** provided to them by the teacher, obtain all appropriate signatures, and meet with the appropriate Department Chair to discuss the request. The request will be reviewed by the Department Chair in consultation with the teacher, student and parent/guardian(s). If the request is granted, the student will **remain in the class for the duration of the course**.

Careful attention should be given to course levels and the overall difficulty of a schedule. Students will not be allowed to make changes to their courses after the selection process is completed at the end of the 2022-23 school year. No course changes will be permitted after the opening of school. If an error was made, the student should inform the school counselor who will initiate the process for correcting the error.

DESCRIPTION OF COURSE LEVELS

Advanced Placement Courses are formally recognized as Advanced Placement (AP) by the Educational Testing Service and culminate with an AP examination.

Honors Courses contain highly challenging material, presented at an accelerated and more intensive pace than college preparatory courses. Honors courses require advanced reading, writing, verbal, conceptual, mathematical and study skills as well as extensive outside preparation.

College Preparatory Courses prepare students to continue their education at the college level. These courses require well developed reading, writing, verbal, conceptual, mathematical and study skills, as well as substantial outside preparation.

Comprehensive (Essential College Prep/Principles/Foundations/Health)

Courses prepare students to continue their education at two-year colleges, or for the work place. Comprehensive courses develop reading, writing, verbal, conceptual, mathematical and study skills through a variety of classroom activities and may require outside preparation.

GRADUATION REQUIREMENTS

Grade	9 – 11	12*
Number of credits that must be earned	124	124
Number of courses that must be taken and passed: ***		
English†	4	4
Mathematics (MA Colleges/Universities require 4 years.)	3	3
Social Studies††	3	3
Science	3	3
Wellness / Physical Ed. †††	4	4

Students must adhere to the Massachusetts Department of Elementary and Secondary Education (DESE) MCAS requirements (or comprehensive exam as determined by DESE) to receive a diploma. Graduation requirements are subject to change per MA DESE.

* **Seniors must earn a minimum of 25 credits in their Senior Year to graduate.**

** **One unit of PE/Wellness must be in the students' Senior Year**

*** **A unit is equivalent to a full year course in all disciplines except for Wellness/Physical Ed. One semester satisfies a unit for Wellness/Physical Ed.**

† **The four English courses that satisfy this requirement are exclusive of electives.**

†† **All students must pass three courses in social studies, one of which must be American History 2.**

††† **All students must participate in a Wellness/Physical education course each year per MA state regulations. Students must pass up to four units of Wellness/Physical Education two of which must be comprehensive health courses and two physical education courses.**

Except for Seniors, students will not be allowed to enroll in two required English courses within the same school year.

Every student must earn a minimum of 124 credits to graduate. Class placement is determined by the number of years that a student has attended high school. Transferring students will have their previous school's transcript evaluated and graduation will be based upon the same 88% standard.

WITHDRAWAL FROM CLASS

Transferring or withdrawing from a course can be a difficult and disruptive process. Once a course begins, there is no guarantee that a request for withdrawal or transfer from a class can be honored, given that alternative options do not always exist. A change in schedule often affects more than just the class in question.

To initiate a **level** change, students must meet with their school counselor who will advise and counsel them as to possible options and consequences of a change. Preference changes will **not** be permitted after the start of the school year.

The following criteria must be met in order for this change to be considered. They are:

1. The student has actively participated in class.
2. The student has completed all assigned homework and class projects.
3. The student has sought additional help outside of the regularly scheduled class time.

A change, even if approved, cannot always be granted. When the proposed course has been closed due to class size or a change would create a conflict in a student's schedule, the intended change cannot be granted.

GRADE POINT AVERAGE

Calculating the course-weighted GPA is accomplished in four steps.

1. Convert each final grade to the scale described below.
2. Multiply the adjusted grade by the credits *earned* in the course.
3. Take the total product from (2) and divide by the number of credits *attempted*.
4. The quotient is the student's course-weighted GPA.

The chart describes the conversions.

Grade	Comp	CP	Honors	AP
100	3.5	4.0	4.5	5.0
99	3.5	4.0	4.5	5.0
98	3.5	4.0	4.5	5.0
97	3.5	4.0	4.5	5.0
96	3.4	3.9	4.4	4.9
95	3.4	3.9	4.4	4.9
94	3.4	3.9	4.4	4.9
93	3.4	3.9	4.4	4.9
92	3.3	3.8	4.3	4.8
91	3.3	3.8	4.3	4.8
90	3.2	3.7	4.2	4.7
89	3.1	3.6	4.1	4.6
88	3.0	3.5	4.0	4.5
87	2.9	3.4	3.9	4.4
86	2.8	3.3	3.8	4.3
85	2.7	3.2	3.7	4.2
84	2.6	3.1	3.6	4.1
83	2.5	3.0	3.5	4.0
82	2.4	2.9	3.4	3.9
81	2.3	2.8	3.3	3.8
80	2.2	2.7	3.2	3.7
79	2.1	2.6	3.1	3.6
78	2.0	2.5	3.0	3.5
77	1.9	2.4	2.9	3.4
76	1.8	2.3	2.8	3.3
75	1.7	2.2	2.7	3.2
74	1.6	2.1	2.6	3.1
73	1.5	2.0	2.5	3.0
72	1.4	1.9	2.4	2.9
71	1.3	1.8	2.3	2.8
70	1.2	1.7	2.2	2.7
69	1.1	1.6	2.1	2.6
68	.9	1.4	1.9	2.4
67	.8	1.3	1.8	2.3
66	.7	1.2	1.7	2.2
65	.5	1.0	1.5	2

Any grade falling at 64 or below is a failing grade and earns 0.00 credit.

COLLEGE AND UNIVERSITY ADMISSION STANDARDS

The admission standards for Colleges and Universities vary from school to school. In general, all schools of higher learning emphasize a strong academic high school preparation to insure the student's readiness to meet their learning challenges. The more selective the college or university, the greater the expectation regarding academic background and the high school course of studies chosen by the student.

In June of 2016, The Massachusetts Board of Higher Education updated the higher admission standards for all of the Commonwealth's four-year public institutions. Meeting these standards is only a minimum requirement and does not guarantee admissions. Final admission decisions rest on a variety of factors. Students should challenge themselves academically and take advantage of all opportunities their high school provides.

Academic Course Requirement (according to the MBHE)

Seventeen college preparatory courses distributed as follows are required:

* English	4 courses
* Mathematics	4 courses (Algebra 1 & 2 and Geometry or Trigonometry, or comparable course work) Students must enroll in core math class during senior year.
* Sciences	3 courses (including 3 courses with laboratory work)
* Social Studies	2 courses (including 1 course in U.S. History)
* Foreign Languages	2 courses (in a single language)
* Electives	2 courses (from the above subjects or from the Arts & Humanities or Computer Sciences)

Admissions Directors at colleges and universities indicate that high school program of studies and performance is the most important credential in admissions determination. The more selective the college or university, the greater the expectations of the admissions committee as defined below.

Most Selective Schools (accept less than 25% of applicants): College-preparatory program recommended. Recommended units include English (4), mathematics (4), social studies (4), science (4) and foreign language (4). Applicants are encouraged to take the most rigorous courses and make the most of any opportunities for enrichment.

Highly Selective Schools (accept less than 50% of applicants): College-preparatory program recommended, 20 units recommended. Recommended units include English (4), mathematics (4), social studies (4), science (4), and foreign language (3).

Selective Schools (accept less than 75% of applicants): College-preparatory program recommended, 16 units required; 20 recommended. Recommended units include English (4), mathematics (3), social studies (3), science (3), foreign language (2-3), and academic electives (4).

Course Registration Procedures

2023-2024

Incoming Grade 9

Below is the timetable to be followed for the course registration process:

1. **March 7th & 10th:** MHS School Counselors will present information during social studies period to Grade 8 students about Mansfield High School, how the schedule works, graduation requirements and expectations of a high school student, as well as how to register on line. The registration timeline will also be discussed. The complete Program of Studies can be found on the MHS website.
2. **March 14th:** Grade 8 students will receive a copy of their teachers' recommendations for the 2022-23 school year and a hard copy of the Incoming Grade 9 Program of Studies will be distributed to each student.
3. **March 15th: Grade 8 Parent Night @ MHS Auditorium at 6:30 PM.** There will be a presentation for Grade 8 parents regarding the online course registration process followed by small group sessions with each department chair at the high school to learn about the content, progression of courses and expectations.
4. **March 14th – March 22nd:** Students register for classes online. The portal closes on Monday, March 22nd at 11:59 PM.
5. **March 22nd - Online course requests must be completed by 11:59pm.**
6. **June:** The last day to request a change to the course requests is the last day of school in June. These requests must be made in writing to Ms. Manganaro.

If a student is not in agreement with a teacher's recommendation they may speak with the teacher. If the recommendation remains the same, they may choose to complete the Course Recommendations Change form given to them by their teacher when they discuss the change. This form must be submitted by **April 7th**.

Instructions for Grade 9 Registration

You are about to make important decisions regarding your academic transition to high school. Selecting the right classes and achieving academic success should be your guidelines. Take the time to review your current teachers' recommendations and the course descriptions in the program of studies. Pay attention to requirements, expectations and prerequisites.

STEP #1: Core Courses:

All students must take English, Social Studies, Math and Science (4 full year courses = 20 credits). Teacher recommendations are listed online. All Grade 9 students are required to take Health – Introduction to Wellness (1 semester = 2.5 credits).

STEP #2: World Language: (French or Spanish):

If World Language (Full year course = 5 credits) will be part of your freshman selections, the recommendation will appear online. If World Language is not listed on the recommendation section of the form, you may choose to take Spanish 1 or French 1.

If you are not taking a world language, proceed to step #3.

STEP #3: Electives:

Total the amount of credits you have registered for so far. Subtract this sum from 35; the remainder is the number of credits you have to select as electives. To complete your schedule, choose additional courses from the elective choices for a total of 35 credits.

The total of core courses and electives as Primary Requests should equal 35 credits.

STEP #4: Alternative Requests: All students need to select alternatives.

When creating a student's schedule, conflicts may occur. For example, two of your selected electives may be taught at the same time. Every effort is made to resolve these conflicts *and* accommodate primary academic choices. We require that all students provide five (5) alternative electives. Check off for your alternative choices in the select box. You may prioritize by placing 1, 2, 3, etc in the box. Failure to provide alternate electives leaves the choice to the scheduling administrator.

STEP #5: Post your registration selections. Course registration requests are to be completed by 11:59 PM March 22nd.

Things to keep in mind when registering for classes online

- Students are able to “unclick” a teacher recommendation. However, if a student wishes to enroll in a class at a **higher level than recommended**, they **must** see their teacher.
- If you have not met the prerequisite for a course, you will not be able to request that course. If you are currently in a course that is the prerequisite for another, the system will presume that you will pass and allow you to register for the next course. In the event that you do not pass the class you are currently enrolled in or do not meet the prerequisite grade, you will be removed from your course selection as you have not met the prerequisite.
- You will be able to register for classes in the visual and performing arts department as well as the physical education department; however, teachers will review the requests and determine if students are eligible for their requested class.
- For academic electives in the Social Studies, Science, Math and English departments, you will see that you have been recommended for either the honors or CP level. You may sign up for any elective at that level provided you have met the prerequisite for the course.
- You **MUST** register for 35 credits for primary choices and 5 alternative courses.

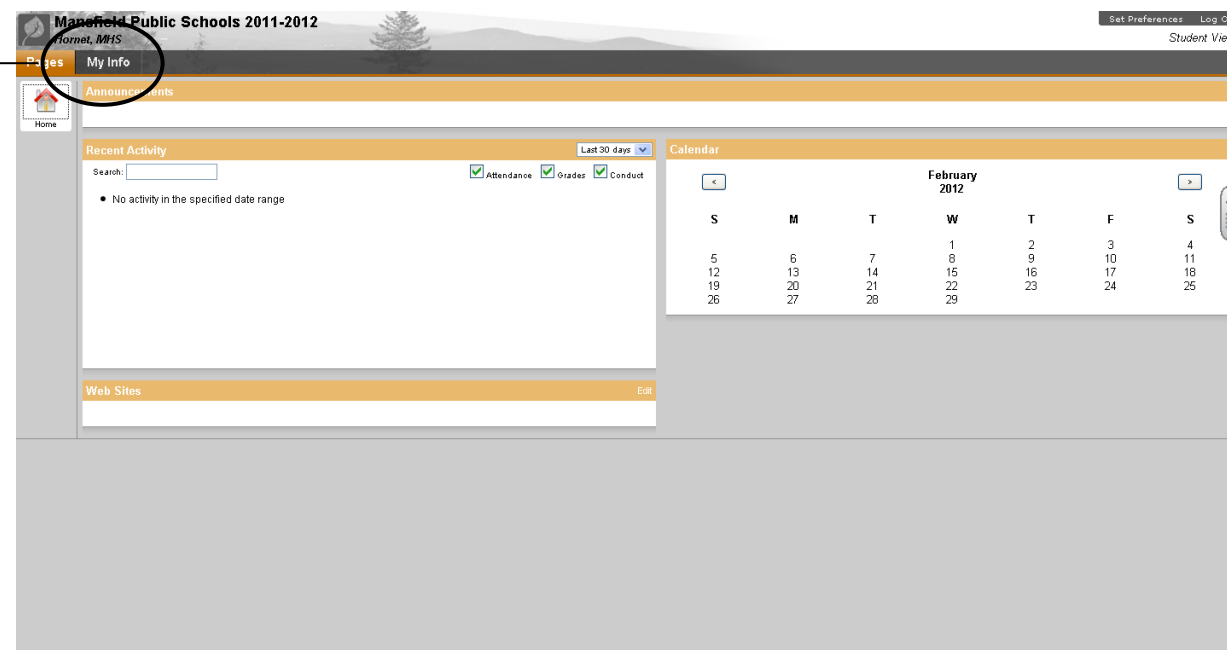

COURSE REQUESTS IN X2

Mansfield High School offers Online Course Registration, streamlining the process. The steps below will detail how to register for your courses online through the X2 Student Portal.

STUDENT COURSE REQUESTS

When you first log into the system using the user name and password, you will be brought to the Student View Home Tab. At any time, if you do not know what screen you are on, you can always click on the *Pages* Top Tab to return to this page.

Your screen may look slightly different.

1. Click on the My Info Top tab.

2. Then Click on the Requests Side Tab.

This will take you to the requests screen.

- Simply click on the *Select . . .* button next to the subject that you want to make the request for. **See below for detailed instructions on how to make your selection.**

- Under Alternate Requests, please choose 5 alternates for the courses you chose under Primary requests.
- If you want to send a message to your counselor, type them in the *Notes for Counselor* section. This is optional.
- Be sure to click on the *Post* button when you are finished with both your requests and any message you type in.

2012-2013 - Requests: 11 primary, 0 alternate - Scheduled: 100% - Credits: 37.5

Instructions
Please review all selections with your counselor before finalizing. Thank you

DETAILED INSTRUCTIONS FOR MAKING YOUR REQUEST FOR A SPECIFIC SUBJECT AREA:

When you click on the *Select . . .* button, you will see a box pop up similar to the one below.

- In the top area, you will see the subject area you are requesting for and any instructions.
- If you are eligible to take a course, there will be a check box available in the *Select* column. Simply check the box and click the OK button.
- If there are more courses available than will fit on the screen, you can click the arrow to scroll to the next page of courses.
- Under the *Status* column you will see one of the following:
 - Recommended** – This is the class that has been recommended by your teacher. You will not be able to remove this selection.
 - Course in Progress** or **Course Completed** – You have completed and passed the course or are currently enrolled.
 - Approval Required** – You can request the course, but final enrollment will depend on department approval.
 - Prerequisite not met** – You have not met the criteria to take this course.

Subject area Social Studies

Instructions Please if you have not been recommended for a course you wish to take, please review that with your teacher. You may select a maximum of 3 courses. If you are interested in taking an AP course you will need the approval of your teacher and the department head.

1 of 19 selected

CourseNumber	CourseDescription	Academic level	Credit	Prerequisite	Status	Select
117	American Hist I	H	5.0			<input type="checkbox"/>
118	American Hist I	CP	5.0		Course in progress	
119	Asian Studies	H	2.5		Course completed	
120	Asian Studies	CP	2.5			<input type="checkbox"/>

187	Economics	H	2.5	222	Prerequisite not met	<input type="checkbox"/>
142	Sociology	H	2.5			<input type="checkbox"/>
143	Sociology	CP	2.5			<input type="checkbox"/>

OK **Cancel**

- Click on the Ok button when you are finished with your selections.

Again, when you have finished making all of your requests for each subject area and typed in any optional notes to your counselor, **you must click on the Post button at the bottom of the request screen for your requests to enter the system.**

Once you have posted your requests, your guidance counselor will be able to view your requests. You **MUST** select 35 credits as primary choices and 5 classes as alternative choices.

ARTS – PERFORMING ARTS

MISSION STATEMENT

The Mansfield High School Performing Arts Department is committed to every student having access to a high quality and equitable performing arts education. Through the study of masterworks across multiple genres and mediums, our students will experience, perform, and carefully scrutinize the best of the music, dance, and theater repertoire in order to hone their skills as performers and consumers of fine arts. Each program and class offered will provide opportunities for a greater level of expression and understanding of the performing arts as a whole. We intend for graduates to become lifelong, enthusiastic participants and supporters of the arts.

*Course
Number Title*

PA820Y BAND
PA821Y BAND

HONORS 5 Credits
CP 5 Credits

The Mansfield High School Band is a diverse musical performance ensemble. The Band provides the opportunity to learn and apply reading skills, as well as performance and interpretive music skills. Band members are not only able to attain a high degree of proficiency on their respective instruments but also an awareness of and appreciation for fine music. Band is available to students at the CP and Honors levels. Students who elect to take band at the CP level do not have to participate in marching band and evening and weekend rehearsals related to marching band. Students who elect to take CP band will participate in class and evening concerts as well as the MICCA festival in the spring. Additional after-school rehearsals may be scheduled at the discretion of the director prior to a concert. Band members who elect to take band at the honors level will be required to meet all of the criteria for the CP level as well as full participation in the competitive marching band. Honors/Marching band members must attend a mandatory band camp in August as well as all preseason rehearsals. From the end of band camp until the final competition, students must attend two rehearsal nights per week and Saturday rehearsals in order to participate in band. Honors/Marching Band students must attend all evening and weekend rehearsals and performances, including competitions, as part of the class grade. Honors level students may also be required to complete additional playing tests each semester. Honors level students will be required to participate in town parades and all home football games. Honors level marching band students may have an opportunity to participate in band trips. Overnight trips are not mandatory but it is our goal to allow every student to participate regardless of their financial situation. There are opportunities for fundraising and scholarships provided by the Mansfield Band Parents Association. There is no impact to a student's grade if they do not participate in an out of state trip. Students are responsible for the upkeep of their personal instruments and any repairs due to neglect of a school instrument. All students must be members in good standing of the band program to participate in Districts, SEMSBA, and All- State. Band members may elect and/or audition for Jazz Band, Winter Percussion, and Color Guard which all meet in the evening and on weekends during competition season. Percussion will split into a separate class from the winds if scheduling allows.

Open to Grades: 9, 10, 11, 12

PA811Y CONCERT CHOIR DAY**HONORS 5 Credits**

Concert Choir is a singing organization at MHS open to all students who enjoy singing. Concert Choir is the core, entrance ensemble for all vocal students. Vocal parts range from Soprano I and II, Alto I and II, Tenor, and Bass. Students will have many opportunities to perform a wide range of choral music. Students will be asked to attend some extra rehearsals for the Winter and Spring Concerts, and other events that may be scheduled by the director and the Performing Arts Department. As a member in good standing, students are eligible to audition for the S.E. District, All-State, or other competitive opportunities sought by the director. All after school and evening rehearsals and performances are mandatory. Overnight trips are not mandatory, but it is our goal to allow every student to participate regardless of their financial situation. There will be fundraising opportunities.

Open to Grades: 9, 10, 11, 12 – Students may elect to take concert choir for one semester or a full year.

PA888Y ORCHESTRA**HONORS 5 Credits**

The Mansfield High School Orchestra is a diverse musical performance ensemble. Orchestra provides the opportunity to learn and apply the reading skills, performance skills and interpretive skills of music. Members are expected to reach a high level of proficiency on their instrument as well as an appreciation for orchestral string and symphonic music. Students will study a variety of literature composed for string orchestra, chamber orchestra, and symphonic orchestra. A minimum of two concerts will be performed each year, with some rehearsals and performances occurring outside of the school day. All rehearsals and performances are mandatory. Meetings and special events are scheduled at the discretion of the director. As members in good standing, MHS Orchestra students are eligible to audition for state music festivals and regional performing groups. Chamber orchestra or other advanced groupings may be available to orchestra members by audition. Overnight trips are not mandatory, but it is our goal to allow every student to participate regardless of their financial situation. There will be fundraising opportunities.

Open to Grades: 9, 10, 11, 12

873 DRAMA 1**CP 2.5 Credits**

This introductory theatre course is designed for students who are interested in learning more about theater and acting. Students will explore improvisational acting techniques, scene work, monologues, character and script analysis, and performance challenges. Students will be required to attend and critique a live theatrical performance. This is a performance/project based course in which students will be expected to participate in all areas of study. A final class play may be performed for an audience.

Open to Grades: 9, 10, 11, 12

878 DRAMA 2**CP 2.5 Credits**

This advanced theatre arts course is designed for students who are serious about acting and directing. Students will analyze scripts, write and perform original plays, and study a variety of theatrical genres. This is a performance/project- based course in which students will be expected to participate in all areas of study. Projects will include performances that are written, directed, and produced for an audience. Students will be expected to analyze and critique their theatrical experiences.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of Drama 1.

880 NO FEAR IMPROV CP 2.5 Credits

Students will learn improvisational techniques that will be explored by doing laugh-filled exercises and skill driven “short form” games. Structured, simple play will guide each improviser to experience individual success, discover the joy of ensemble support, and build a foundation to increase their creative and critical thinking skills.

Open to Grades: 9, 10, 11, 12

PA880Y TECHNICAL THEATRE/STAGE CRAFT 1/2 CP 2.5 Credits

This is an introductory technical theatre class. Students will learn how to operate sound and lighting equipment, design and build scenery, work as a part of the stage crew to move scenery backstage during dress rehearsals and performances, create a variety of images using specialized painting techniques, design and make props, select appropriate costumes, and collaborate with theater professionals from the local area. Students must be available after school to participate on the stage crew prior to and during performances.

Open to Grades: 9, 10, 11, 12 This class may be repeated.

890S MUSIC THEORY CP 2.5 Credits

Music Theory is a course designed for students who have a serious interest in understanding the fundamentals of music and applying those fundamentals to composition and arranging. Students will learn basic concepts of pitch, rhythm, harmony, scales, and modes. Students will also be drilled in ear training, sight singing, and dictation. In Music Theory, students will learn to apply those fundamentals to basic composition projects.

Open to Grades: 9, 10, 11, 12

870 MEDIA PRODUCTION: Podcasts, TV & Music Industry H 2.5 Credits

Recorded media is a performance art, requiring multiple components of production skills. Over the course of the semester, students will learn about different media tools. They will develop research skills as well as creative planning and production knowledge in a number of recording platforms. Students will develop a long-range project specific to their interests and produce a podcast or television programming. The semester will culminate in the production of a television program or podcast in relation to the topic of their choice. Students will develop skills as “on air” talent, producers, researchers, and recording artists in an effort to create a piece of media.

Open to grades: 9, 10, 11, 12

885S HISTORY OF ROCK AND ROLL MUSIC H 2.5 Credits
883S HISTORY OF ROCK AND ROLL MUSIC CP 2.5 Credits

This course examines musical styles attributing to the emergence of Rock and Roll in the 50’s through its different incarnations today. Rock history will cover a diverse range of genres as well as the social movements and events that encouraged change in the music industry. Hands on exploration of the music studies should be expected. Instruments used in class will include ukulele and various percussion instruments. No prior instrumental experience is necessary. Course work will be lecture, research, reflection, and discussion based. Students should expect to improve upon writing, research, application of technology, critical thinking and debate. Honors students will complete additional assignments and projects.

Open to Grades: 9, 10, 11, 12

882 HIP HOP HISTORY**CP****2.5 Credits**

This course will examine the connections between the music, poetry and literature, and the social and cultural revolutions of expression. Beginning with hip-hop's roots in jazz and reggae, students will trace the movements and ideas that emerged to produce the hip-hop culture enjoyed by many today. Topics will include political and social revolutions, censorship, technology, and the aligned art forms that became the pillars of modern hip-hop; rap, graffiti, break dancing, mc'ing, and knowledge. Students will investigate Hip Hop through both music and non-music exploration, including poets like Langston Hughes, Allen Ginsburg, Jack Kerouac, Gregory Corso; artists like Banksy, Iz the Wiz, See; political movements and petition groups like Jamaican Labour Party, People's National Party, Parents Music Resource Center, and more. Course work will be lecture, research, reflection, and discussion based. Students should expect to improve upon writing, research, application of technology, critical thinking and debate.

Open to Grades: 9, 10, 11, 12

884 GUITAR I**CP****2.5 Credits**

This course will cover the basics of guitar, music fundamentals and essential theory. The guitar will be introduced at a beginner's level with instruction in the accompanying notation. A history of the guitar and overview of different musical styles will be studied as well. The course aims to create an appreciation for music through playing. Students should expect to play alone, in small groups, and as a large ensemble. There will be a performance component. There may be a requirement for students to participate in at least one evening performance as part of the students grade. Guitars will be provided for class use and students will be required to have a tuner or download a tuner app to their phone.

Open to Grades: 9, 10, 11, 12 This class may be repeated.

889 GUITAR II**CP****2.5 Credits**

This course expands on the foundation built in Guitar I and will provide a deeper study of music fundamentals, music theory, and musicianship. Building on what students learned in Guitar I, students will examine different genres, notation and chord structures. A history of the guitar and overview of different musical styles will be studied as well. The course aims to create an appreciation for music through playing. Students should expect to play alone, in small groups, and as a large ensemble. There will be a performance component and students may be required to perform during at least one evening performance. Guitars will be provided for class use and students will be required to have a tuner or download a tuner app to their phone. This class may be repeated multiple times.

Open to Grades: 9, 10, 11, 12

Prerequisite: Guitar I or approval of teacher and department chair. This class may be repeated.

886 MUSIC IN FILM**CP****2.5 Credits**

This course will examine the role of music in film and media throughout history. It will focus on the functions of music within society, the cultural language music provides as well as the different elements/styles of music used in visual media. Students will explore the story telling of the radio era, silent films, commercial/sound effects, news reel, and styles of popular film from the classic era to today's Hollywood. Students can expect to participate in class discussions, research projects, writing assignments, presentations, and analytical reflections and debates of film and score resources. Audio/visual components will be utilized in presentations.

Open to Grades: 9, 10, 11, 12

888 DANCE AND STAGE MOVEMENT**CP****2.5 Credits**

This course will provide students with fundamental dance skills. Course work will also develop student appreciation for the art form and its history. A concentration on movement will increase body awareness as well as artistic and expressive abilities. Students should expect to investigate different dance forms, historical periods and performers, identification and understanding of quality movement, the anatomy of dance, varied dance genres, and choreography. Students should expect to improve upon writing, research, application of technology, critical thinking and debate. Students will be required to have appropriate dance attire for rehearsal and performances. There will be an in class public speaking and performance component. Students may be required to attend at least one evening performance. This class may be repeated and is best taken as two consecutive semesters.

Open to Grades: 9, 10, 11, 12 (This cannot count toward PE Requirement) This class may be repeated.

893 PROJECT TEAMMATE MUSIC**CP****2.5 Credits**

Project teammate students will work with peer mentors on a variety of music-based activities and projects. This creative sound play class will focus on singing, movement, percussion, and theater based music activities. Students can expect to create sound stories and other similar projects. Students will be encouraged to perform their work at school events and concerts.

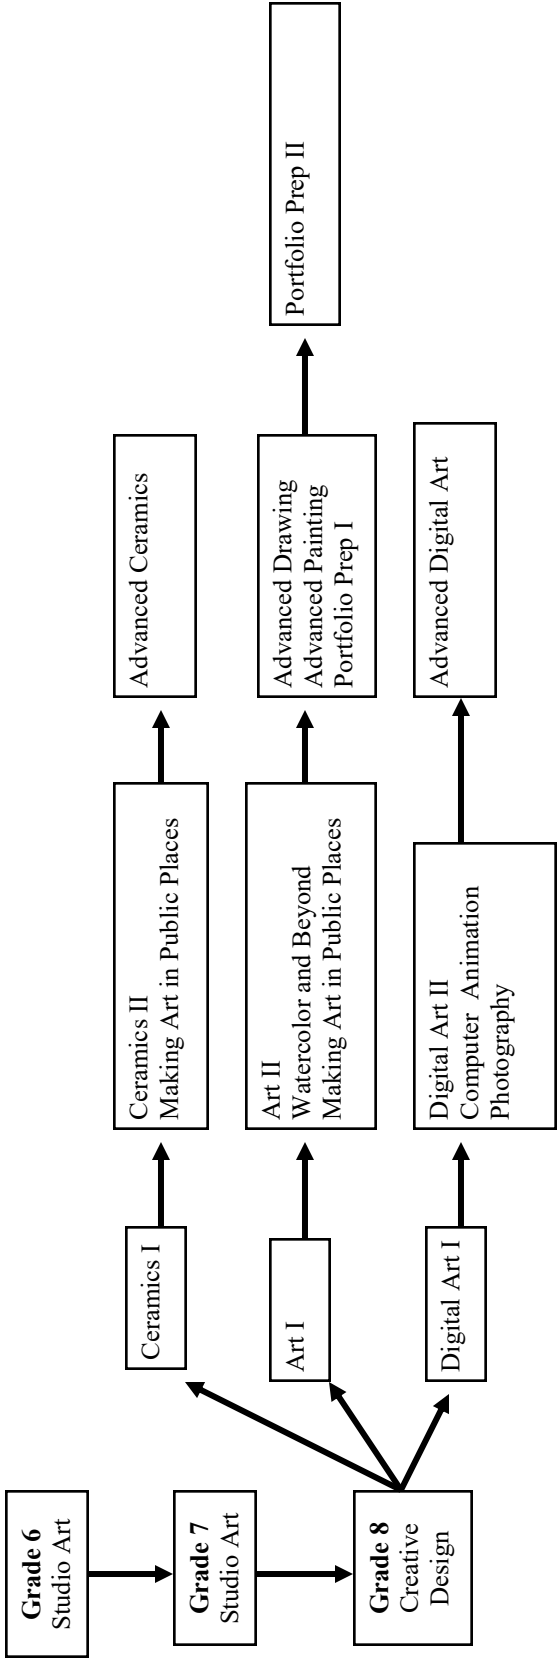

Open to Grades: 9, 10, 11, 12 *By recommendation only*

887 MUSICIANSHIP**H****2.5 Credits**

Open to students who have previously been or are enrolled in a performance ensemble. This course is designed to help students enrolled in Band, Orchestra, Guitar or one of the Choirs become better musicians by engaging in the study of ensemble literature, basic music theory, musical vocabulary, and practice and performance techniques. Students will develop a specific and intensive practice regimen based on a study of best practices. A focus on the development of technical and ensemble abilities allows each student to take responsibility for their musical development in a structured environment. Continual self- assessment is a key part of the class as students examine their own strengths and needs and then find best practices or innovative and creative ways to improve needs and further enhance strengths.

Open to Grades: 9, 10, 11, 12

ARTS - VISUAL ARTS

MISSION STATEMENT

The mission of the Mansfield High School Visual Arts Department is to provide students with intellectually informed, hands-on instruction in the practice of an array of visual arts media within the context of a broader school community. Students will develop critical insight and formal and technical innovation, and be encouraged to express their own ideas via the various mediums. The Visual Arts Department believes that student art can be a positive force in school culture and the community at large. In the event of virtual or hybrid instruction, certain aspects of course work may be modified and some supplies will be provided.

*Course
Number Title*

821S ART I CP 2.5 Credits

This introductory course is intended for students wanting to develop their creative skills. An emphasis on the principals and elements of design, observational drawing and portraiture are taught in this class. Using light, shadow, shade and tone and color, students learn to manipulate design elements in a variety of two and three-dimensional media to create representational and abstract artwork. Various techniques are introduced and students are encouraged to develop their own style of work. Students become familiar with the problems of design, basic art elements, proper use of scale and perspective, and introduction of specialized media. Assessments include periodic tests, process and product critiques, and weekly sketchbook assignments. Participation in regular departmental exhibitions is a course expectation. There is no prerequisite for this course.

Open to Grades: 9, 10, 11

822S ART II CP 2.5 Credits

This course involves advanced investigation of the principles and elements of art. Students develop critical thinking and visual problem solving skills, advanced artistic knowledge, and vocabulary based upon the foundation established in Art I. Continued color mixing, analysis and application will be fundamental skills taught in this class. Research and class critiques help students to internalize specialized arts vocabulary and habits of mind. Weekly homework sketchbooks reinforce material learned in the classroom. Participation in regular departmental exhibitions is a course expectation.

Open to Grades: 9, 10,
11 Prerequisite: Art I

841S CERAMICS I**CP****2.5 Credits**

This introductory course in ceramics will cover the basic techniques of hand-building. In addition, students will be introduced to the various stages of clay process including various firing and glazing techniques. Students will explore a variety of glazing and surface decoration. Students will need to understand the application of the elements and principles of design relating to 3d space, develop skill in personal expression, as well as aesthetic valuing and historical references to this art form and its methods. Students will participate in written and oral critiques. Students will also be encouraged to develop their own projects, individual directions, and ideas in the creative range of clay. Participation in regular departmental exhibitions is a course expectation.

Open to Grades: 9, 10, 11, 12

862 DIGITAL ART I**CP****2.5 Credits**

This is an introductory digital art class exploring **computer based art, photography and animation**. Students use digital drawing tablets, digital cameras and various software programs from the Adobe Creative Suite to explore foundational art theory concepts such as the elements of art, principles of design, color theory, composition, and typography to produce exciting artwork for the web and print. ***This class was previously known as Digital Media and cannot be repeated.***

Open to Grades: 9, 10, 11

864 ART IN ACTION**HONORS 2.5 Credits**

Are you sick of the tri-fold board for most school projects? Do you like to create or build? Even if you don't consider yourself "an artist," consider Art in Action! Join our class to explore an area of interest (from science to language, world literature to sports...you name it!) and then use your knowledge as a springboard to create. Art in Action allows for an individualized approach to project based learning. Students will bring their personal and academic interests and ideas from other parts of their life and design and build projects based on those interests. Using critical thinking and problem solving skills, you may work collaboratively with an academic teacher and an art teacher to develop exciting and challenging projects that explore your interests.

Open to Grades: 9, 10, 11, 12

869 THE ART OF MINDFULNESS**CP****2.5 Credits**

Through the expressive modalities of Art, Movement, Music and Creative Writing students will be empowered to empower themselves. Students will focus on the process of their creative endeavor. From creating zentangles to practicing Yoga. This class is instrumental in creating a balance in the average day of high demands on a teenager. Mindful art can reduce anxiety and enhance learning in the classroom by improving focus and concentration, assists visual learners, and releases stress by focusing on one thing- being in the zone. Curriculum will be tailored to students' needs. We will work individually and interactively. We will manage stress, overcome obstacles and cultivate compassion and thrive through adversity. Students will come into this positive environment and leave with outcomes that benefit both the individual and school community as a whole.

Open to Grades: 9, 10, 11, 12

831 PROJECT TEAMMATE ART**CP****2.5 Credits**

In this course students will be introduced to a variety of media and issues/topics. This course emphasizes the importance of “process” in creating a piece of art. Topics will be presented and students will be asked to find creative solutions to problems. Some topics that will be visited are conceptual art, art history, and current events. Students will receive support and structure. Students will be assessed through their efforts, creative problem solving methods, critiques and journaling. Students will be encouraged to participate in creating displays in the school and establish community connections.

Open to Grades: 9, 10, 11, 12 *By recommendation only*

832 PROJECT TEAMMATE ART MENTORSHIP**CP****2.5 Credits**

Students enrolled in this course will collaborate in a one-on-one format with Art Exploration students (Project Teammate). The student mentor will assist in a variety of problem solving projects chosen by or assigned to the Art Exploration student, and will assist in using media, and model techniques that are presented in the Art Exploration course. During some of the projects, student mentors will research and provide cultural and/or historical information that is relevant to the work being produced. Student mentors will also direct art explorers in a way that will assist them in finding their own personal style. Student mentors will be assessed through their efforts in class participation, will be required to participate in written and oral critiques, and will keep a written journal.

Open to Grades: 9, 10, 11, 12

BUSINESS & TECHNOLOGY

MISSION STATEMENT

The mission of the Business and Technology Department is to prepare students for college, career, and life through exposure to a variety of technical, business and financial application courses. Students who seek elective offerings in this department may be exposed to foundational concepts in the areas of Business, Marketing, and Finance, will have an opportunity to explore career interests, and will develop skills using computer-based programs commonly found in the work force. Each class focuses on improving student's knowledge of the global business world. Students learn to appreciate how critical business decisions and ever-changing technology impact consumers and affect business operations.

*Course
Number Title*

516 DESIGN PUBLICATION CP 2.5 Credits

Using Microsoft Publisher students will familiarize themselves with the program and their capabilities. Students will also design, format and present a variety of documents to effectively communicate for academic, personal and professional projects. They will start at the beginning and work their way through to cover everything from opening a new publisher document, learn how to enhance simple documents, learn how to create brochures and other business material, learn how to highlight important facts or add other elements. Microsoft Publisher provides a source of templates, tips and layout ideas that will be introduced throughout different projects in the course. By the end of this course you will be able to create material ready for a professional presentation. If you have taken Desktop Publishing previously you cannot enroll in this course.

Open to Grades: 9, 10, 11, 12

514 INTRODUCTION TO BUSINESS CP 2.5 Credits

Do you have an interest in Business but don't know what field of business to pursue? This introductory course will explore a variety of business topics giving students a solid foundation to pursue other Business & Technology classes in high school and college. Learning about the following topics, accounting, marketing & advertising, management, leadership & ethics, and economics, just to name a few, is a great place to start. Even if you don't pursue a career in Business, you'll have a great opportunity to learn how to be an educated consumer!

Open to Grades: 9, 10

521 ENTREPRENEURSHIP CP 2.5 Credits

This introduction course provides students an opportunity to become real entrepreneurs by running a small business in class! A classroom business will be funded with seed money from prior entrepreneurship students completing the same project. Topics covered will include major business functions such as management, production, operations, marketing and accounting. Students will enhance their experience through research, collaboration, simulations, and analysis of various current media.

Open to Grades: 9, 10, 11, 12

543 PERSONAL FINANCE**CP****2.5 Credits**

This course will give students an introduction to Personal Finance topics in accordance to Massachusetts' state standards on financial literacy: Earning and Spending Income, saving money, Using Credit and Making Investments, and Protecting and Insuring Assets. Simulations, hands-on learning activities, and available technology will be used to enhance students' skills.

Open to Grades: 9, 10, 11, 12

550 CAREER READINESS**CP****2.5 Credits**

This course will help prepare students for immersion into the business world. Topics covered will include self-assessment, career exploration, balancing a daily life, starting your career, communication skill development, presentations, and exposure to various technology. Students will each create a portfolio website to highlight their skills using examples of work throughout the course. This course is strongly recommended for students planning to make Career Pathways a senior option. If you have taken Career Theory previously you may not enroll in this course.

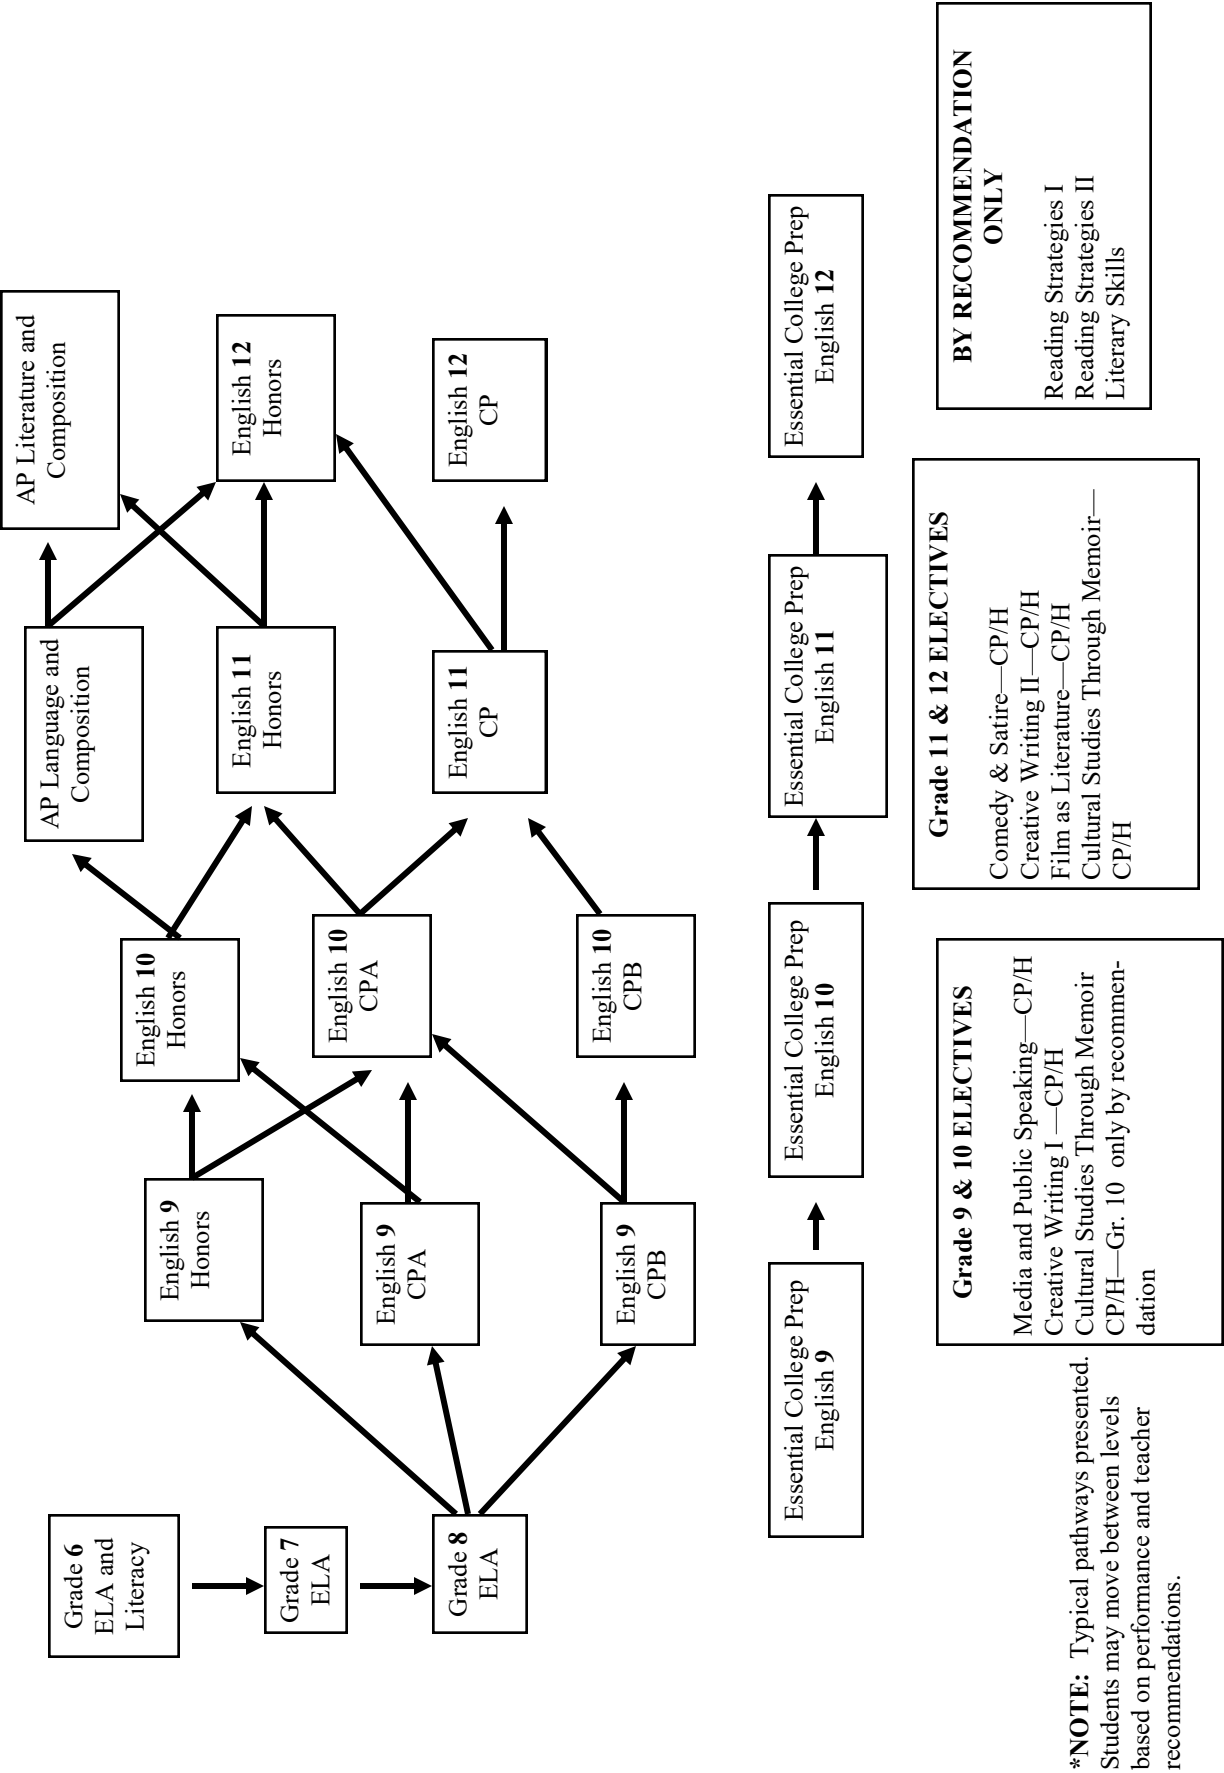

Open to Grades: 9, 10, 11, 12

551 INTRODUCTION TO OFFICE**CP****2.5 Credits**

This course is designed to provide students an introduction to Microsoft Windows and Microsoft Office 2016. Students will prepare and produce communications, presentations, publications and reports using Microsoft Word, Excel, PowerPoint and other technology tools, including Google Applications. Students will be exposed to practical business examples of the computer as a useful tool. They will analyze, select and apply appropriate software to accomplish specific tasks using Microsoft Office and other applications. Students will employ technology application skills for critical, problem solving, and will use an exercise-oriented approach that allows learning by doing.

Open to Grades: 9, 10, 11, 12

ENGLISH SEQUENCE GRID

All English courses are aligned to the Massachusetts English Curriculum Frameworks and follow the suggested pathways outlined in the document. The Honors and College Prep courses are designed to prepare students for success at a four-year college or university. The Foundations/Essential courses, for recommended students only, prepares them for a two-year college or career readiness.

ENGLISH

MISSION STATEMENT

The mission statement of the English Department is to promote clarity of thought and clarity in written expression by developing skills in reading, writing, listening, speaking, and critical thinking. The various components of the curriculum are directly tied to these skills. For example, every freshman, sophomore, and junior participates in our department-wide Writing Sample Program to master rhetorical strategies for developing expository essays. Students study grammar to improve their reading comprehension and writing. Students study literature as a model for writing and critical thinking as well as a means to provide a perspective for understanding our world, ourselves, and the consequences of our actions.

CRITERIA FOR LEVELS

FOUNDATIONS/ESSENTIAL COLLEGE PREP STUDENT

- Student is able to access grade-level literature and text with instruction and support of guided reading activities.
- Student demonstrates developing written expression skills. Student's writing needs guided support in one or more of the following areas: focus, progression of ideas, and selection of appropriate evidence to support ideas.
- Student needs assistance in developing successful study skills in one or more of the following areas: guided note-taking, class preparation, and/or organization.
- Students are able to complete assignments with guided support.

COLLEGE PREP-B STUDENT (Gr. 9 & 10)/CP STUDENT (Gr. 11 & 12)

- Student is still developing study skills in one or more of the following areas: note-taking, class preparation, completion of writing assignments, and/or organization.
- Student may have difficulty grasping the literal meaning of the assigned literature and benefits from guided support with critical analysis.
- Student's writing is developing toward mastery. Student's writing needs guided support in one or more of the following areas: organization, focus, coherence, progression of ideas, and/or selection of appropriate evidence to support ideas.
- Student is able to manage nightly homework assignments, which may entail a reading load of 12-15 pages.

COLLEGE PREP-A STUDENT

- Student is prepared for class. Preparation includes having completed the homework assignments as well as bringing the proper materials.
- Student is able to grasp the literal meaning of the assigned literature and attempts to do critical analysis.
- Student's writing is competent, demonstrating adequate mastery, although writing may have lapses in quality
- Student completes nightly homework assignments, including nightly reading assignments which may entail up to 18-25 pages.

HONORS STUDENT

- Student is always prepared for class. Preparation includes having completed the reading assignments for class discussion as well as bringing the proper materials.
- Student independently is able to grasp the literal meaning of the assigned literature and demonstrates strong critical thinking skills.
- Student takes an active role in class discussion on a daily basis.
- Student's writing is well organized and focused; the writing also exhibits a facility in the use of language. Additionally, the student is willing to accept writing feedback and criticism in order to grow as a writer.
- Student completes nightly homework assignments, which may entail a lengthy reading load.
- Student exhibits a diligence to pursue an answer to a challenging idea even when the solution is not obvious on the first try.
- Student is able to manage a demanding workload—both in and out of class.
- Student is motivated to learn and has the desire to be in an academically rigorous class.

Course

Number Title

016 ENGLISH 9

HONORS 5 Credits

Students can expect an accelerated course in grammar, vocabulary, composition, and literature. They must be motivated to read independently, interpret challenging literature, and take an active role in class participation. The coverage of material is rigorous, and the work in writing is intensive. Students will explore the different literary genres and read works such as *The Odyssey*, *Romeo and Juliet*, *A Tale of Two Cities*, *Great Expectations*, *To Kill a Mockingbird*, *Just Mercy* and *Of Mice and Men*. Students will examine these works closely, analyzing their literary and thematic content through class discussions, writing assignments, oral presentations, and research activities. Students will also be introduced to the study of rhetoric in both written and visual texts. They will work toward mastery of the multi-paragraph essay. Students will make formal and informal oral presentations. The course is aligned to the 2017 English Language Arts and Literacy Framework.

Open to Grade: 9

Prerequisite: In order to meet with success in this course, students should have demonstrated proficiency or mastery on essays in eighth grade ELA, and on the English skills assessment.

017 ENGLISH 9

CPA 5 Credits

Students can expect a challenging course in grammar, vocabulary, composition, and literature. They must be able to read and write independently. They will explore the different literary genres and read works such as *The Odyssey*, *Romeo and Juliet*, *Great Expectations*, *To Kill a Mockingbird*, and *Of Mice and Men*. Students will examine these works closely, analyzing their literary and thematic content through class discussions, writing assignments, oral presentations, and research activities. Students will also be introduced to the study of rhetoric in both written and visual texts. They will work toward writing proficient multi- paragraph essays. Students will be required to make formal and informal oral presentations. This course is aligned to the 2017 English Language Arts and Literacy Framework.

Open to Grade: 9

Prerequisite: They should be approaching proficiency on essays in eighth grade ELA, and on the English skills assessment.

Students will be introduced to the different literary genres and to effective rhetorical strategies for composition. In addition to readings from the ninth grade anthology, they will read selected literary works such as *The Odyssey*, *Romeo and Juliet*, *To Kill a Mockingbird*, and *Of Mice and Men* to develop their reading comprehension and analytical skills. Students will also be introduced to the study of rhetoric in both written and visual texts. Students will work toward proficiency in writing the five- paragraph essay. Throughout the year, students will work on improving vocabulary, grammar, and research skills. Students will continue to develop all of the basic skills necessary to succeed on the state's assessment. This course is aligned to the 2017 English Language Arts and Literacy Framework.

Open to Grade: 9

Prerequisite: Students should have scored in the lower range on essays in eighth grade ELA and on English skills assessment.

090.9 ESSENTIAL COLLEGE PREP ENGLISH 9

COMP

5 Credits

Students will be introduced to the literary genres and to effective rhetorical strategies for composition. This course is designed to help students who need specific skill instruction in reading comprehension and writing development. Students will read selections in fiction, nonfiction, poetry, and *The Odyssey* from the ninth grade anthology; they will also read the following literary works such as: *To Kill a Mockingbird*, *Of Mice and Men*, and *Early Autumn* and selected scenes from the play *Romeo and Juliet*. or *Julius Caesar*. Students will also be introduced to the study of rhetoric in both written and visual texts. Students will work toward developing proficiency in writing the five-paragraph essay with an emphasis on strengthening the fundamentals of written expression. Throughout the year, students will work on improving vocabulary, grammar, and research skills. This course addresses the essentials of the 2017 English Language Arts and Literacy Framework and will prepare students for two-year colleges, technical training, military service and/or the work force.

Open to Grade: 9 *By recommendation only*

040 MEDIA STUDIES AND PUBLIC SPEAKING

CP

2.5 Credits

041 MEDIA STUDIES AND PUBLIC SPEAKING

HONORS

2.5 Credits

Students will develop their critical thinking skills by examining the strategies and agendas present in radio, newspapers, magazines, television, and social media as well as in advertisements and commercials. In addition, students will have the opportunity to develop public speaking skills through formal speeches and informal presentations. Students will hone research skills and persuasive argument techniques. Students taking the course for Honors credit will be required to do an additional independent project.

Open to Grades: 9, 10

050	<i>CREATIVE WRITING I</i>	<i>CP</i>	<i>2.5 Credits</i>
053	<i>CREATIVE WRITING I</i>	<i>HONORS</i>	<i>2.5 Credits</i>

Here is an elective is for those students who enjoy writing – poetry, stories, journals. Students will receive an introduction to the essentials of style, syntax, and plotting for creative writing with particular attention to fiction, poetry, and creative nonfiction. Students can expect to write in and out of class and share their work with peers and instructor for evaluation and guidance. This elective is open to freshmen and sophomores, and it does not take the place of the regular English requirement. Students taking the class for honors credit must have a mastery of English conventions; in addition, they are required to complete a substantial independent project. Students will be encouraged to submit work for publication, such as in the school newspaper or literary magazine.

Open to Grades: 9, 10

063	<i>READING STRATEGIES I</i>	<i>COMP</i>	<i>5 Credits</i>
------------	------------------------------------	--------------------	-------------------------

This course is designed for students with significant difficulties with decoding and encoding. Following a structured, multi- sensory, language-based approach, with an emphasis on sound and syllable segmentation, this course, which is taught by a highly qualified special education teacher, incorporates essential reading components, including instruction in decoding, encoding, fluency, vocabulary and comprehension.

Open to Grades: 9, 10, 11, 12 *By recommendation only*

063.2	<i>READING STRATEGIES II</i>	<i>COMP</i>	<i>5 Credits</i>
--------------	-------------------------------------	--------------------	-------------------------

Building on concepts taught in Reading Strategies 1, this course focuses on more advanced decoding strategies. It is designed for students with significant difficulties with decoding and encoding. Following a structured, multi-sensory, language-based approach, with an emphasis on sound and syllable segmentation, this course, which is taught by a highly qualified special education teacher, incorporates essential reading components, including instruction in decoding, encoding, fluency, vocabulary and comprehension.

Open to Grades: 9, 10, 11, 12 *By recommendation only*

067	<i>LITERARY SKILLS</i>	<i>COMP</i>	<i>5 Credits</i>
------------	-------------------------------	--------------------	-------------------------

This course is designed to provide students with significant difficulties with reading comprehension across the curriculum. This course, taught by a highly qualified special education teacher, focuses on strategies necessary to increase reading comprehension, fluency and vocabulary. Students will practice and apply strategies learned across content areas, as well as develop composition skills.

Open to Grades: 9, 10, 11, 12 *By recommendation only*

HEALTH & WELLNESS

MISSION STATEMENT

The Health and Wellness Department at Mansfield High School teaches students mental and physical wellness concepts designed to promote healthy habits which support healthy families, relationships, schools and communities. Students will develop the knowledge and skills necessary to assess risks to physical and mental well-being, and to communicate information clearly. We are committed to providing students with a safe and supportive environment to facilitate discussion and learning surrounding challenging topics.

Scope and Sequence

There is a graduation requirement of four (4) years of PE and Wellness. In those years, students are expected to complete:

Grade 9: All Freshman select Introduction to Wellness
Grade 10: All Sophomores choose Introduction to Fitness
Grade 11: All Juniors select Health Dynamics
Grade 12: All Seniors select a PE elective

*Course
Number Title*

934 WALKING AND FITNESS COMP 2.5 Credits

Fitness walking has many positive health benefits including the improvement of cardiovascular health. Walking has become a very popular activity for all age groups because of the numerous health benefits. In addition to participating in a walking program, students will discuss and demonstrate walking safety, flexibility, proper footwear, health benefits, various weight training exercises and goal setting.

Open to Grades: 11, 12 (Preference given to seniors)
9th grade with permission from Department Chair

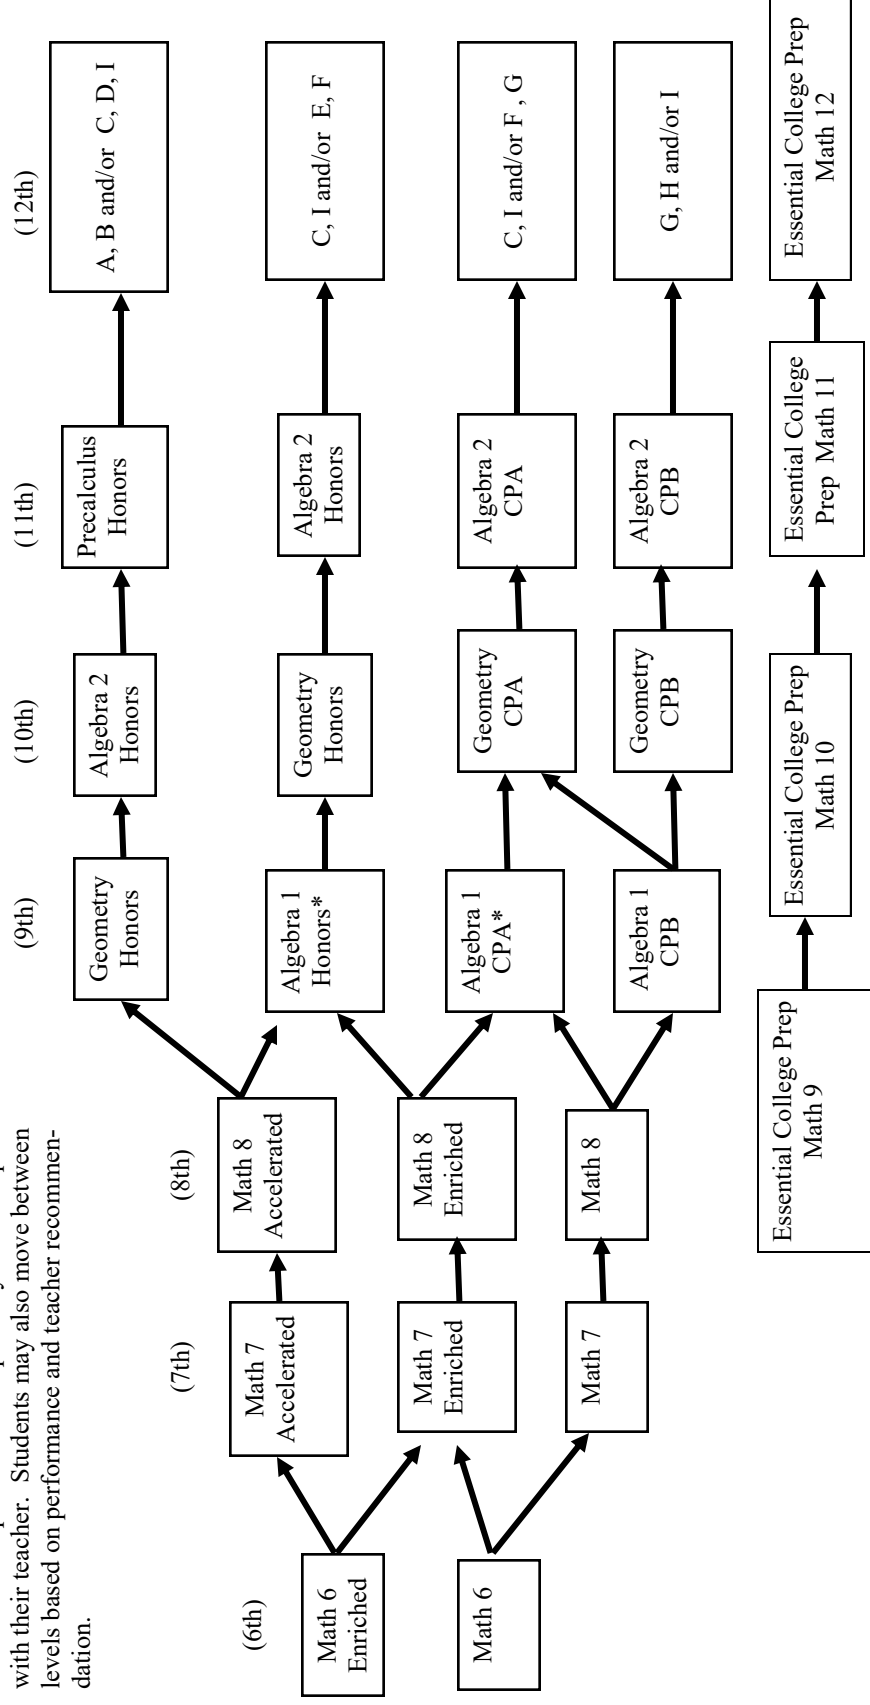

938 INTRODUCTION TO WELLNESS COMP 2.5 Credits

This course will provide students with basic principles of wellness for healthy living. Students will work towards a mastery of skills in communication, goal setting, and decision-making. Using the Six Components of Health as a model framework, topics will include risk factors to health, adolescent brain development, mental and emotional health, human sexuality, the effects of alcohol and drug use and abuse, and safety, and injury prevention. Students will be able to use the knowledge and skills they gain to reduce stress, build healthy relationships, and make informed decisions regarding their health.

Open to Grade: 9

MATH SEQUENCE GRID

The mathematics pathways presented are most typical, though alternate pathways exist. Students who wish to explore alternate pathways should speak with their teacher. Students may also move between levels based on performance and teacher recommendation.

*Students seeking calculus senior year may elect to take Algebra II and Geometry concurrently in their sophomore year. Students should consult with their teacher if interested in this option.

The Honors and College Prep courses are designed to prepare students for success at a four-year college or university. The Principles/Essential courses, for recommended students only, prepares them for a two-year college or career readiness.

MATHEMATICS

MISSION STATEMENT

The mission of the Mathematics Department is to provide students with an environment where they can learn to become adept problem-solvers and independent thinkers. The curriculum combines content standards and the Standards for Mathematical Practice as outlined in the MA curriculum frameworks to develop critical thinking skills that blend procedural fluency, conceptual understanding, and mathematical applications. In addition, technology is used to enhance and support mathematical reasoning. The goal of the Mathematics Department is to promote students' ability to fully appreciate the beauty of mathematics and view it as a means to understand the world around us.

CRITERIA FOR LEVELS

PRINCIPLES/ESSENTIAL COLLEGE PREP STUDENT

- Student needs assistance in developing successful study skills in one or more of the following areas: note-taking skills, class preparation, completing written assignments, and organizational skills.
- Student needs assistance understanding and communicating the mathematical ideas presented in each lesson.
- Student may need assistance in displaying work in an organized manner.
- Student employs appropriate problem solving strategies with support.

COLLEGE PREP B STUDENT

- Student is often prepared for class; preparation includes bringing book, notebook, pencil and calculator to class each day.
- Student will develop successful study skills in one or more of the following areas: note taking skills, class preparation, completing written assignments, and organizational skills.
- Student completes all written assignments (attempts every problem, checking answers and marks problems not understood).
- Student may require support to understand and communicate some of the mathematical ideas presented in each lesson.
- Student is able to manage daily homework assignments.

COLLEGE PREP A STUDENT

- Student is prepared for class. Preparation includes bringing book, notebook, pencil and calculator to class each day.
- Student is able to understand the mathematical concepts presented in each lesson and may occasionally need to stay after school for clarification.
- Student completes all written assignments (attempts every problem, checking answers and marks problems not understood).
- Student displays work in an organized manner showing adequate understanding of material.
- Student is actively engaged in the learning process.
- Student is able to manage daily homework assignments.
- Student is willing and able to seek out extra help when needed.
- Student can recognize and employ the most appropriate strategy to solve problems.
- Students are able to use technology to access, evaluate, and effectively apply information.

HONORS STUDENT

- Student is well prepared for class. Preparation includes bringing book, notebook, pencil and calculator to class each day as well as having completed the written assignments.
- Student thoroughly completes all assignments in an organized manner with attention to accuracy and proper use of mathematical language.
- Student completes all assignments and presents them in a neat, organized manner showing a good understanding of the material.
- Student is actively engaged in the learning process.
- Student expresses a strong desire to learn and understand mathematics.
- Student is willing and able to seek out extra help when needed.
- Student is an independent test-taker who plans and uses time wisely.
- Student accepts responsibility for managing a rigorous workload.
- Student is able to make connections between abstract mathematical concepts and concrete applications.
- Student can recognize and employ the most appropriate strategy to solve problems.
- Students are able to use technology to access, evaluate, and effectively apply information.

<u>Course Number</u>	<u>Title</u>		
---------------------------------	---------------------	--	--

096.9	ESSENTIAL COLLEGE PREP MATH 9	COMP	5 Credits
--------------	--------------------------------------	-------------	------------------

In this course, you will continue to develop critical thinking skills, work cooperatively in groups, and learn to clearly communicate mathematical ideas. You will learn to use the language of algebra as you explore and solve a wide variety of math problems using both technology and hands-on materials. This discovery approach is designed to help the student who struggles with abstract mathematical concepts. This course addresses the essentials of the Massachusetts Curriculum Frameworks and will prepare you for two-year colleges, technical training, military service and/or the work force.

Open to Grade: 9 By recommendation only

212	ALGEBRA 1	CPB	5 Credits
------------	------------------	------------	------------------

In this course, you will be introduced to algebraic concepts organized around families of functions. Particular emphasis will be placed on linear and quadratic functions. Mathematical concepts and skills that deal with exponential functions will also be addressed. You will learn to represent each family of functions by utilizing verbal descriptions, equations, tables and graphs. Problem-solving strategies will be addressed throughout the course as you use functions to model real-world situations. You will develop critical thinking skills, learn to work cooperatively, and learn to clearly communicate mathematical ideas. This course is fully aligned to the Massachusetts Curriculum Frameworks and contains an in-depth review of the mathematical topics addressed in the state assessment.

Open to Grades: 9, 10

213 ALGEBRA I**CPA****5 Credits**

In this course, you will be introduced to the algebraic concepts and skills that focus on linear, quadratic, and exponential functions. You will learn how to represent these functions verbally, numerically, graphically and analytically. The graphing calculator will be used to demonstrate visually how functions relate to equations and graphs, and also how functions can be used to model discrete data. Problem-solving strategies will be addressed throughout the course. Real-life applications will also be presented throughout the course in order to show the usefulness of mathematics in the real world. This course is designed for the student who is proficient in basic mathematical skills and concepts, or has had some previous success with algebraic concepts and skills in grade eight. This course is also fully aligned to the Massachusetts Curriculum Frameworks.

Open to Grades: 9, 10

218 ALGEBRA I**HONORS****5 Credits**

This course is primarily intended for those students who need to strengthen their understanding of algebraic concepts before pursuing the Geometry Honors course. It will provide students with an in-depth and rigorous approach to algebraic thinking, by further developing the balance between procedural fluency and conceptual understanding. Problem solving will be emphasized and the graphing calculator will be used throughout the course. Topics to be studied include polynomial operations and all factoring techniques, systems of equations, inequalities and absolute values, rational and radical expressions and equations, relations and functions, and quadratic equations. Upon completion of this course, students will have a very strong foundation for advanced mathematical study. This course is fully aligned to the Massachusetts Curriculum Frameworks.

Open to Grade: 9

Prerequisite: Entering 9th graders must have passed Math 8 Accelerated (Grade 8 Algebra 1) with at least a 75 average or teacher recommendation, or must have passed Math 8 Enriched with at least a 90 average and teacher recommendation.

214 GEOMETRY**HONORS****5 Credits**

This course is primarily intended for those students who have achieved mastery of the skills and concepts of an Honors Algebra I course and can demonstrate a thorough grasp of mathematical practice and theory. Students will explore the nature of reasoning in which models found in a geometric setting are used to examine different types of thinking processes. Attention will be given to those concepts and properties, which relate to three-dimensional objects. Topics from coordinate geometry and transformational geometry will also be studied. The connection between geometry and the real world will be reinforced through mathematical applications. This course will offer you a rigorous, in-depth approach to the study of geometry and will establish important skills and understandings extensively used in later advanced mathematics courses. This course is fully aligned to the Massachusetts Curriculum Frameworks.

Open to Grades: 9, 10

Prerequisite: Entering 9th graders must have passed Math 8 Accelerated (Grade 8 Algebra 1) with at least an 88 average. Entering 10th graders must have passed Algebra 1 Honors with at least an 80 average or teacher recommendation.

Similar in content to Geometry Honors, this course places less emphasis upon theory and more emphasis upon integrating and relating geometric concepts to algebra, statistics, data analysis, probability, and discrete mathematics. Students will explore geometric situations, develop conjectures, and ultimately prove their conjectures using a variety of methods. Realistic and relevant applications will be offered throughout this course. Topics to be studied include triangle congruence, similarity of triangles based on dilations and proportional reasoning, circumference, area, volume, Pythagorean Theorem applications, and probability. This course is fully aligned to the Massachusetts Curriculum Frameworks.

Open to Grades: 9, 10, 11

Prerequisite: Entering 9th graders must have passed Math 8 Accelerated (Grade 8 Algebra 1) with at least an 85 average, or successful completion of Algebra 1 CPA with at least a 70 average.

248 INTRODUCTION TO ENGINEERING 1**HONORS 2.5 Credits**

Introduction to Engineering 1 is a math-based, hands-on engineering course designed for high school students who would like to explore the various fields of engineering. This course follows *Engineering the Future*, a STEM (Science, Technology, Engineering and Math) curriculum created by the Boston Museum of Science. It focuses on the fundamentals of engineering and applies the math and science you are learning in your classrooms to modern real-world problems that involve civil, mechanical, and electrical engineering. It integrates engineering, mathematics, science and technology and prepares you for life in the information age.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of Algebra 1 (CPA or Honors).

263 EXPLORATIONS IN MATH 1**HONORS 2.5 Credits**

Students will explore problems from a variety of branches of mathematics and learn the process of how to unlock the solutions, how to use pattern recognition to solve problems and learn how to think outside the box. In this course you will learn about logic, modular arithmetic, non-Euclidean Geometry (such as taxi-cab geometry), sets, and combinatorics. Students will work individually and in small group settings on both classic and interactive math puzzles and problems. If you are a freshman or sophomore who enjoys mathematics, then this course may be just what you are looking for.

Open to Grades: 9, 10

Prerequisite: Successful completion of Algebra 1 Honors, Algebra 1 CPA with at least an 85 average or concurrent enrollment in Geometry Honors.

This course is an introductory computer science course that inspires students to utilize creativity, problem-solving, and communication skills as a framework for design challenges and programming assignments. You will learn how to program websites, animations, games, and even music using HTML, CSS and JavaScript. Starting with simple shapes, students will progress to more sophisticated sprite-based games and animations. Using music technology, students will write their own computer code to create and remix music that is unique, design new sounds, effects, and musical structures. Students will also learn how to use the computer as a tool for developing software applications. A wide variety of practical problems will be explored in a highly interactive and collaborative computer lab setting. Previous programming is not required to take this course.

Open to Grades: 9, 10, 11, 12

OTHER COURSES

(Application required or by recommendation only)

062.1 & 062.2 ACADEMIC SKILLS WORKSHOP

COMP

2.5 Credits

Academic Skills Workshop is designed to support students with organization, time management, academics, executive functioning, and social skills. The intent of Academic Skills Workshop is to help students improve these skills and to provide foundational knowledge of how to be successful in high school and with their post-secondary plans.

Students will:

1. set goals they wish to achieve;
2. work to achieve their individual goals and objectives;
engage in mini lessons to enhance their academic and social skills.

Open to Grade: 9, 10, 11 & 12

Access to this course is by Recommendation Only

089.1 & 089.2 ACADEMIC SKILLS WORKSHOP/FEL

COMP

2.5 Credits

Offers support services for those students who have exited the English Learner program and have been identified as a Former English Learner. Students set academic goals, receive study skills instruction, learn test-taking strategies, organizational and time management techniques, and can receive content support on core subjects

Open to Grade: 9, 10, 11 & 12

Access to this course is by Recommendation Only

101Y STUDY SKILLS

COMP

5 Credits

This class is designed for students with disabilities who require supportive instruction to assist them in accessing the general curriculum. Students in this class, which is taught by a highly qualified special education teacher, utilize academic support and develop strategies to learn how to use their strengths to compensate for area(s) of difficulty or challenge, to develop self-awareness, self-advocacy, organizational skills and to gain independence in managing their academic responsibilities.

Open to Grade: 9, 10, 11 & 12

Access to this course is by Recommendation Only

114 EL FOUNDATIONAL

COMP

5 Credits

Offers instructional and support services for those students whose first language is not English and who have been identified as Limited English Proficient, Foundational level. These services focus on listening, speaking, reading and writing English, as well as providing support for the classroom curriculum in other subjects.

Open to Grade: 9, 10, 11 & 12

Access to this course is by Recommendation Only

115 EL TRANSITIONAL

COMP

5 Credits

Offers instructional and support services for those students whose first language is not English and who have been identified as Limited English Proficient, Transitional level. These services focus on listening, speaking, reading and writing English based on SEI English class content, as well as providing support for the classroom curriculum in other subjects.

Open to Grade: 9, 10, 11 & 12

Access to this course is by Recommendation Only

SCIENCE SEQUENCE GRID

***NOTE:** Typical pathways presented. Students may move between levels based on performance and teacher recommendations.

++ See pre-requisites for electives

All science courses are aligned to the Massachusetts Science Curriculum Frameworks and follow the suggested pathways outlined in the document. The Honors and College Prep courses are designed to prepare students for success at a four-year college or university. The Principles/Essential courses, for recommended students only, prepares them for a two-year college or career readiness.

SCIENCE

MISSION STATEMENT

Science education in the Mansfield Public Schools is purposefully designed to provide engaging, relevant and rigorous curriculum instruction in order to develop the knowledge and skills necessary to produce scientifically literate and responsible citizens.

CRITERIA FOR LEVELS

PRINCIPLES/ESSENTIAL COLLEGE PREP STUDENT

- Student completes class assignments and employs successful study skills with guided support
- Student stays focused on the lesson and participates during lab investigations.
- Student exhibits appropriate behavior in class and engages in their learning.
- Student seeks assistance and asks questions when problem solving.
- Student expends the necessary effort to learn and understand the course content with guided support.

COLLEGE PREP STUDENT

- Student is prepared for class. Preparation includes bringing the proper materials and having the assigned homework complete.
- Student completes homework assignments.
- Student stays focused on the lesson and participates during lab investigations.
- Student exhibits appropriate behavior in class and especially during lab investigations.
- Student expends the necessary effort to learn and understand the course content.

HONORS STUDENT

- Student is always prepared for class. Preparation includes bringing proper materials as well as having reviewed class notes and completed the homework assignment(s).
- Student completes nightly homework assignments thoroughly and consistently.
- Student expresses a strong desire to learn and understand the material.
- Student stays focused on the lesson and takes an active role in class discussions and lab investigation.
- Student seeks extra help when needed.
- Student manages the demanding workload both in and out of class.
- Student exhibits appropriate behavior in class and especially during lab investigations.

Course
Number **Title**

302 *BIOLOGY with Lab*

HONORS 5 Credits

Biology Honors is a rigorous life science course. Students engage in a detailed study of biology over two semesters including the fundamentals of biochemistry, molecular biology, ecology, genetics, evolution, and human body systems. Students should be capable of self-directed study with limited guidance. Students will be assessed on collaboration, investigative lab work, analytical thinking and their ability to draw conclusions from essential questions. Laboratory investigations are an integral part of the course and students should be advanced in the scientific method and their ability to analyze their results. Students complete extensive independent work including projects, outside readings, and virtual labs. Mandatory independent study and assignments outside of class are required. Students electing this course must be academically motivated and have a strong interest in pursuing further courses within the science curriculum. This course addresses the biology learning standards in the Life Science strand of the Massachusetts Science and Technology/Engineering Curriculum Framework and will prepare students for the MCAS in Biology. This course may include dissection; in compliance with State Board of Education policy, students may decline to participate in dissections and demonstrate competency through alternative methods.

Open to Grade: 9

Prerequisite Course: Grade 8 science

Recommended Grade: 90

355 *BIOLOGY with Lab*

CP 5 Credits

Biology College Prep is an in depth study of the life sciences based on the learning standards in the Life Science strand of the Massachusetts Science and Technology/Engineering Curriculum Framework and will prepare students for the MCAS in Biology. Hands-on inquiry based activities, virtual labs, and peer collaboration are important components of the course. Students should be capable of self-directed study, able to think analytically, make detailed observations and draw conclusions for essential questions. Mandatory independent study and assignments outside of class are required. Curriculum for Biology College Prep includes biochemistry, cells, ecology, genetics, evolution, and human body systems. Success in this foundational course helps prepare students to progress through future science courses such as Chemistry, Anatomy and Physiology, and Environmental Science while at MHS. This course may include dissection; in compliance with State Board of Education policy, students may decline to participate in dissections and demonstrate competency through alternative methods.

Open to Grade: 9

Prerequisite Course: Grade 8 science

080 *ESSENTIAL COLLEGE PREP BIOLOGY*

COMP 5 Credits

Essential College Prep Biology is a study of the life sciences based on the learning standards in the Life Science strand of the Massachusetts Science and Technology/Engineering Curriculum Framework and will prepare students for the MCAS in Biology. Curriculum for Biology College Prep includes biochemistry, cells, ecology, genetics, evolution, and human body systems. This course will prepare students for two-year colleges, technical training, military service and/or the work force. This course may include dissection; in compliance with State Board of Education policy, students may decline to participate in dissections and demonstrate competency through alternative methods.

Open to Grade: 9, *By recommendation only*

324 ENVIRONMENTAL ISSUES with Lab: Habitat and Species HONORS 2.5 Credits

This science class has a research lab component. Students spend a semester studying some of the most pressing threats to Earth's wildlife due to human actions and climate change. Unites covered include endangered species, zoonotic diseases, invasive species, the animal-black-market trade, animals in captivity and the disappearance of the honey bee. The design of the course allows for student-led research and focus on the history of the issues, the current status and the future predictions for the animals and habitats of the world. Primary focus is on preservation, conservation and restoration. Each unit of study incorporates group projects where students will be responsible for planning, researching and creating detailed final products which they will share with their classmates. This class is best suited for independent and motivated learners that can handle long-term projects in a group dynamic. Time is expected outside of class to complete the projects.

Open to Grades: 9, 10, 11, 12

Prerequisites: Concurrent enrollment in Honors Biology or successful completion of CP Biology

Recommended Grade: College Prep Biology: minimum grade of 80

325 ENVIRONMENTAL ISSUES with Lab: Marine Science HONORS 2.5 Credits

This semester elective in environmental issues is taught at the honors level and focuses on the current status and health of the Earth's oceans and the life within it. The nature of this class emphasizes student research, group collaboration and the project- based model to expose students to ocean processes as they relate to climate change. Taught as a current issues research course, this elective will cover topics such as coral bleaching, melting sea ice, mega storms, over-fishing, whaling, the great garbage patch, coastal flooding, beach erosion, sea turtles and more. This class is best suited for independent and motivated learners that can handle long-term projects in a group dynamic. Time is expected outside of class to complete the projects.

Open to Grades: 9, 10, 11, 12

Prerequisites: Concurrent enrollment in Honors Biology or successful completion of CP Biology

Recommended Grade: College Prep Biology: minimum grade of 80

353	<i>FIELD ECOLOGY with Lab</i>	<i>HONORS</i>	<i>2.5 Credits</i>
354	<i>FIELD ECOLOGY with Lab</i>	<i>CP</i>	<i>2.5 Credits</i>

Applied Biological Concepts is a project-based course focusing on the practical uses of basic biological information with an emphasis on Ecology. Students will utilize the science and engineering practices from the Massachusetts Science Technology and Engineering Curriculum Framework. By studying how hypotheses are developed, experiments are designed, and analytical methods are employed, students will develop critical thinking skills that are not only relevant to science, but also to being an engaged citizen within their own community as well as the world. In this project-based class, students will work within peer groups on a variety of field-based projects. A major emphasis is placed on local watersheds, stream ecology, and population ecology. Given the nature of the research, students may get dirty or wet within the class and school community. This course allows students the opportunity to participate in real-world science applications while providing a foundation for potential future studies in the sciences. Students taking this course are expected to attend 2-3 out of school/off site field trips throughout the semester with the purpose of completing field work and data collection.

Open to Grades: 9, 10, 11, 12

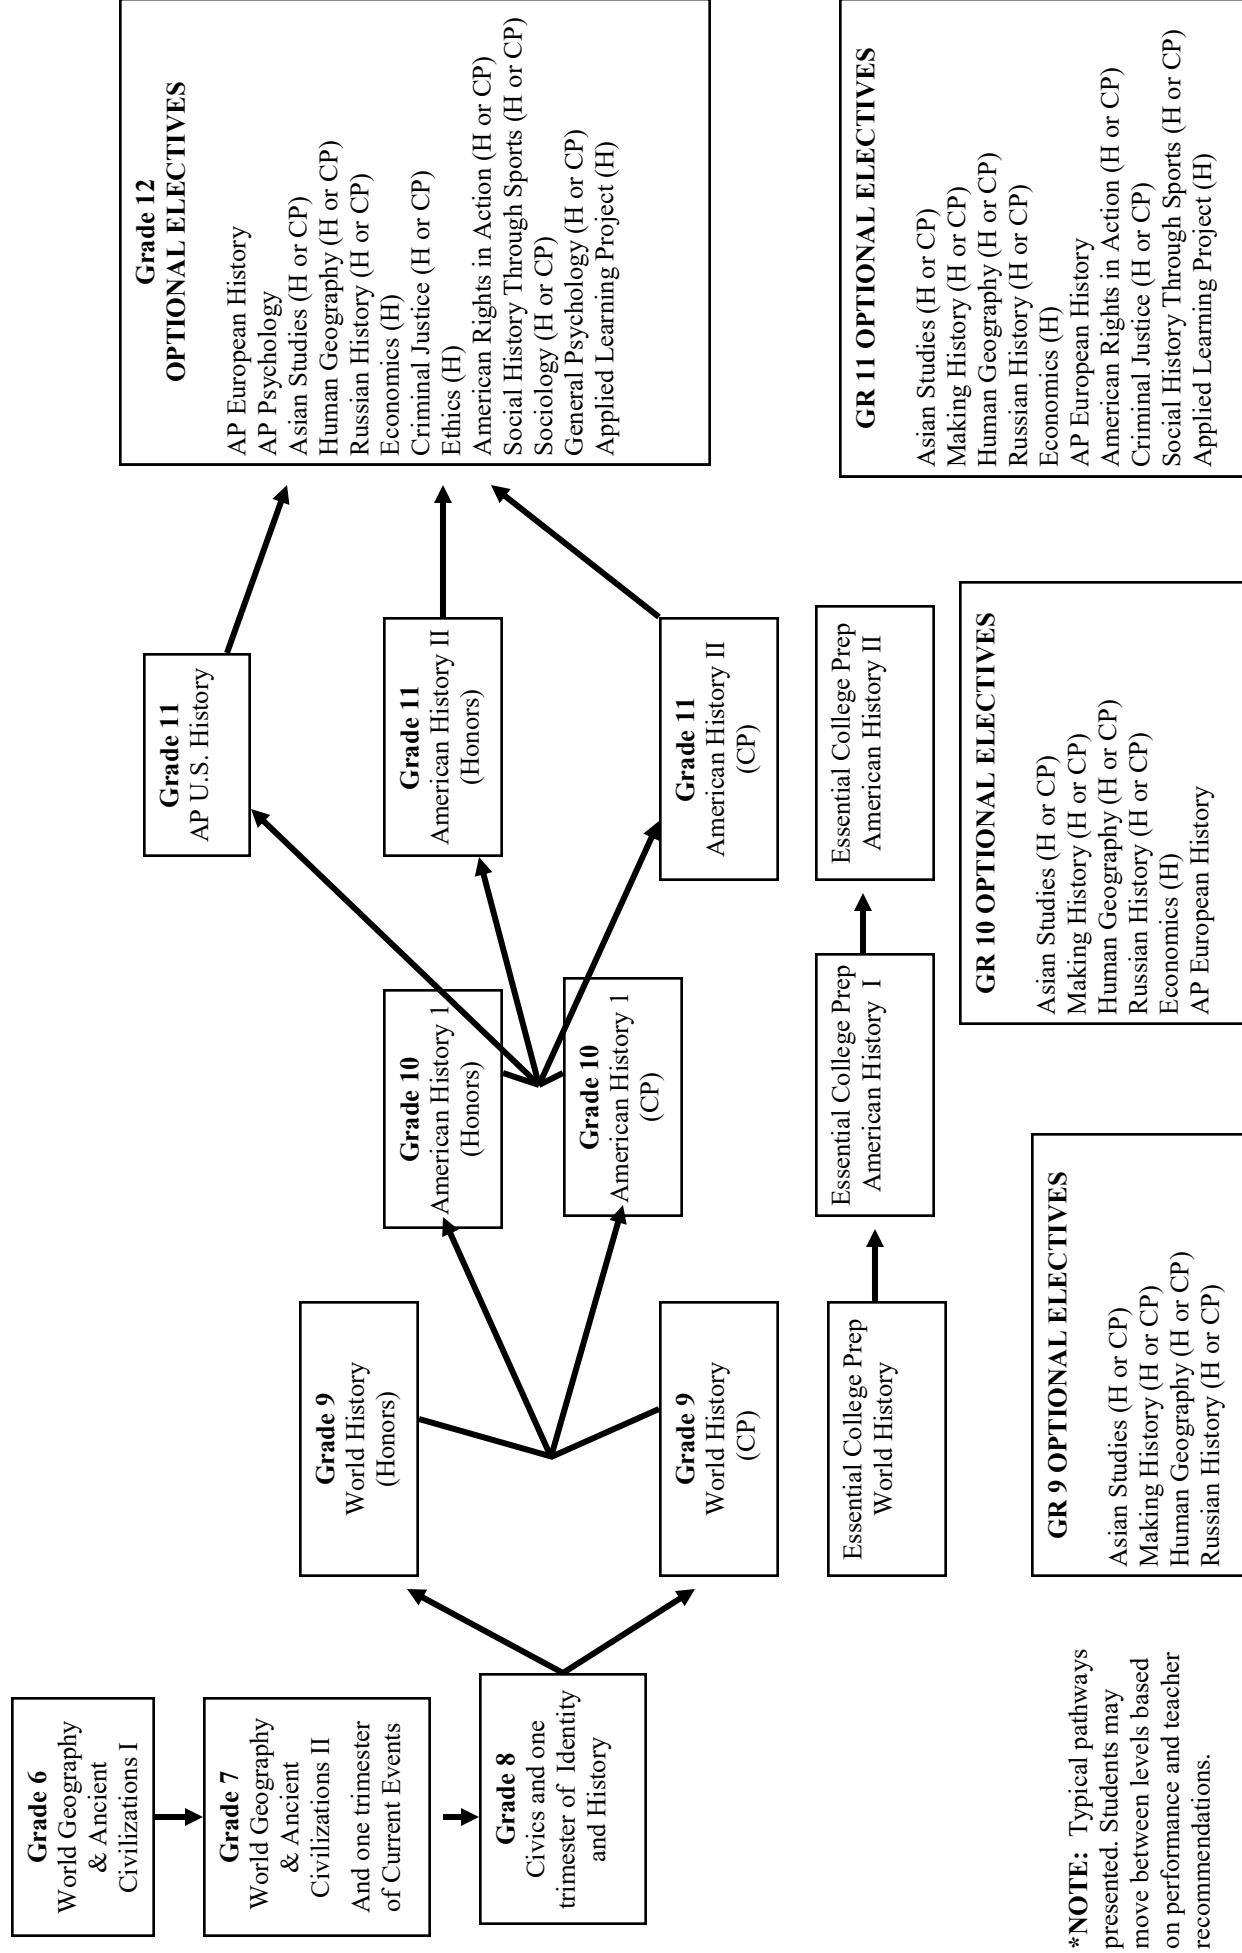

348 *STEAM with Lab*
349 *STEAM with Lab*

HONORS 2.5 Credits
CP 2.5 Credits

This offering is inspired by recent nationwide attention on science, technology, engineering and math education. Students selecting this course must be self-motivated, creative and interested in problem solving where there can be more than one solution. Grading in this course is entirely dependent on the process rather than the outcome. At the completion of projects, students will reflect upon and share the math, science, and technology connections to other subject areas, previous projects, and the world outside the classroom.

Open to Grades: 9, 10, 11, 12

SOCIAL STUDIES SEQUENCE GRID

***NOTE:** Typical pathways presented. Students may move between levels based on performance and teacher recommendations.

GR 9 OPTIONAL ELECTIVES

- Asian Studies (H or CP)
- Making History (H or CP)
- Human Geography (H or CP)
- Russian History (H or CP)
- Economics (H)
- AP European History

GR 10 OPTIONAL ELECTIVES

- Asian Studies (H or CP)
- Making History (H or CP)
- Human Geography (H or CP)
- Russian History (H or CP)
- Economics (H)
- AP European History

GR 11 OPTIONAL ELECTIVES

- Asian Studies (H or CP)
- Making History (H or CP)
- Human Geography (H or CP)
- Russian History (H or CP)
- Economics (H)
- AP European History
- American Rights in Action (H or CP)
- Criminal Justice (H or CP)
- Social History Through Sports (H or CP)
- Applied Learning Project (H)

All social studies courses are aligned to the Massachusetts Social Studies Curriculum Frameworks and follow the suggested pathways outlined in the document. The Honors and College Prep courses are designed to prepare students for success at a four-year college or university. The Foundations/Essential courses, for recommended students only, prepares them for a two-year college or career readiness.

SOCIAL STUDIES

MISSION STATEMENT

The mission of the Social Studies Department is to prepare students to be informed, engaged, and tolerant citizens through an integrated study of history and social sciences. Our program gives opportunities for students to enhance their reading, writing, and critical thinking skills. These skills include but are not limited to inquiry processes, analysis, collaboration, and decision-making. The knowledge and skills they acquire will prepare students to make informed decisions as citizens of a culturally diverse, democratic society, and interdependent world.

CRITERIA FOR LEVELS

FOUNDATIONS/ESSENTIAL COLLEGE PREP STUDENT

Foundations/Essential College preparatory students demonstrate the ability to complete the following tasks:

- Comprehend and synthesize textbook and class readings with guided support
- Comprehend cause and effect relationships with guided support
- Write a multi-paragraph essay using evidence with guided support
- Engage in meaningful class discussion
- Develop note-taking and organizational skills with guided support

COLLEGE PREP STUDENT

College preparatory students demonstrate the ability to complete the following tasks:

- Comprehend and synthesize textbook and class readings
- Answer fact-oriented questions with little prompting
- Identify major cause and effect relationships among events in history
- Write a multi-paragraph essay with correct usage of supporting evidence
- Engage meaningfully in class discussion
- Come to class regularly with necessary supplies and completed homework
- Maintain an organized notebook
- Seek teacher support when necessary

HONORS STUDENT

Honors students demonstrate the ability to complete the following tasks:

- Understand key content without significant external prompting
- Read and comprehend material that is appropriate or slightly above grade level
- Logically defend a given position in debate or in writing by applying relevant supporting evidence
- Understand class content that is conceptual in nature, and not necessarily chronological
- Differentiate between types of historical sources and identify biases contained in those sources
- Write a short paper organized around a thesis statement
- Seek teacher support when necessary

In addition Honors students demonstrate the following characteristics:

- A genuine enthusiasm and interest for the subject
- Self-discipline and organization

<i>Course</i>	
<u>Number</u>	<u>Title</u>

081	ESSENTIAL COLLEGE PREP WORLD HISTORY	COMP	5 Credits
------------	---	-------------	------------------

In this course students will investigate world history thematically by examining the impact of science and technology, the “Have’s and Have Not’s”, and the uses and abuses of power. Specific topics include monotheistic and polytheistic religions (Judaism, Hinduism, Buddhism, Christianity and Islam), the agricultural and industrial revolutions, the French Revolution, imperialism, the World Wars, the rise of dictatorships, and the Holocaust. Student will explore case studies on Europe, Africa, India, China, and the Middle East. Students can also expect to refine and improve writing and research skills. This course addresses the essentials of the Massachusetts Social Studies Curriculum Frameworks and will prepare students for two-year colleges, technical training, military service, and/or the work force.

Open to Grade: 9, *By recommendation only*

108	WORLD HISTORY Honors	HONORS	5 Credits
109	WORLD HISTORY CP	CP	5 Credits

In this course students will investigate world history thematically by examining the impact of science and technology, the “Have’s and Have Not’s”, and the uses and abuses of power. Specific topics include monotheistic and polytheistic religions (Judaism, Hinduism, Buddhism, Christianity and Islam), the agricultural and industrial revolutions, the French Revolution, imperialism, the World Wars, the rise of dictatorships, and the Holocaust. Student will explore case studies on Europe, Africa, India, China, and the Middle East. Learning strategies based on performance objectives stress the development of critical thinking skills and the clarification of values important to a democratic society. Students can also expect to refine and improve writing and research skills. Substantive outside class reading and writing will be required at the honors level, and regular class reading and writing will be required in the college prep level.

Open to Grade: 9

Recommendation: Students recommended for the honors level should be earning at least a 90 in 8th Grade Social Studies and demonstrate exceptional reading, writing, and critical thinking skills.

119	ASIAN STUDIES	HONORS	2.5 Credits
120	ASIAN STUDIES	CP	2.5 Credits

This course will examine different themes impacting Asia. Some of the topics that will be examined, though not limited to, are Asian philosophy and religion, gender studies, important historical events in Chinese history, and current events. Throughout this course, students will work on improving their critical thinking, reading, and writing skills. Honors level students will be expected to complete an additional research project on a topic of their choosing.

Open to Grades: 9, 10, 11, 12

122	MAKING HISTORY	HONORS	2.5 Credits
121	MAKING HISTORY	CP	2.5 Credits

This course will help students learn how to effectively research and to think like a historian. Using inquiry based learning, students explore historical topics that cater to their own interests and curiosity. Through using the National History Day Program, every student who takes this course will develop a project using one of the following mediums: historical essay, documentary, performance piece, website, or exhibit. Unlike other classes where students develop projects and then move on, this class will focus on improving their product and taking ownership of it. Not only will students have the opportunity to create a product to demonstrate their growth and knowledge in their selected field, students will also have the opportunity to compete against other student projects at Mansfield High School, across the state and possibly at a National level. Students will also gain many valuable skills that will be applicable beyond their high school career, as this course will focus on developing their interview skills, critical thinking, creative thinking, and discipline and time management. Students who wish to take this course at the honors level will have additional requirements.

Open to Grades: 9, 10, 11

130	HUMAN GEOGRAPHY	HONORS	2.5 Credits
131	HUMAN GEOGRAPHY	CP	2.5 Credits

Students will learn about problems from around the world and how they are impacted by physical, economic, cultural, political, and urban geography. Case studies from around the world on population growth, migration, technological developments, territorial disputes, gender equality, the demands of ethnic minorities, and the role of climate change and environmental abuse will allow students to develop a greater understanding of how geography shapes human environment relationships.

Open to Grades: 9, 10, 11, 12

132	RUSSIAN HISTORY	HONORS	2.5 Credits
133	RUSSIAN HISTORY	CP	2.5 Credits

Students will examine the history of Russia from its early beginnings through present times. Topics will include the impact of geography on Russia and Central Asia; The culture, religions, literature, and music of Russia; Imperial Russia under Peter and Catherine the Great; and the Soviet State and Modern Russia. Honors students will be expected to complete additional reading and research.

Open to Grades: 9, 10, 11, 12

SPECIAL EDUCATION PROGRAMS

MISSION STATEMENT

The Special Education Department at Mansfield High School is committed to preparing all students to be career- and/or college-ready, by providing them with opportunities to participate in a high quality education in the Least Restrictive Educational Environment, by supporting them to meet their individual goals, and by allowing them to access the curriculum through a variety of entry points designed to meet individual needs. We will promote the learning and growth of all students through instructional practices that establish high expectations, create a safe and effective classroom environment, and meet a broad range of learning needs.

Program: **Steps**

Open to Grades: 9, 10, 11, 12

This substantially separate program, which is taught by a highly qualified special education teacher, serves students with complex special needs (including but not limited to: medical, cognitive, learning) that impedes their progress in basic and functional areas, and who are functioning significantly below grade level. This program provides academic instruction as well as assistance in the development of functional skills and in the areas of self-help, Adaptive Daily Living (ADL) skills, social interactions, and communication. Inclusion opportunities and job exploratory experiences are an integral part of students' education to assist in the development of independence. Students participate in the MCAS with accommodations or the MCAS Alternative Assessment. Students in this program will earn a high school diploma or Certificate of Attendance and remain in school until age 22. Other students may earn a high school diploma. Many of these students participate in an Extended School Year program to prevent regression of previously learned skills.

Program descriptions can be altered at anytime, given the needs of the students. The progress of all students with disabilities is carefully monitored. As students gain skill and demonstrate success, their Individual Educational Programs are adjusted accordingly. Instruction in the least restrictive educational setting in which the student makes effective progress is the ultimate goal. In the case where a student is not making effective progress within a particular program and/or delivery of a service, the team will reconvene to discuss program options and/or re-evaluate the student's skills and needs.

WORLD LANGUAGE SEQUENCE GRID

GRADE 11 & 12 ELECTIVES

Spanish/French Practicum—Honors
Hispanic Culture Through Film—CP/H
Portuguese Culture —CP/H

***NOTE:** Typical pathways presented. Students may move between levels based on performance and teacher recommendations.

WORLD LANGUAGES

MISSION STATEMENT

Mansfield High School's World Languages Program builds global citizens through the study of languages and cultures from a variety of countries. We believe that World Language acquisition challenges stereotypes and builds appreciation for diversity in our society and abroad. World Language study provides a platform upon which students can effectively communicate and collaborate, while fostering respect for the values and traditions of others. Interdisciplinary in nature, World Language study builds students' understanding of their own culture and history with respect to its influence on the world around them.

CRITERIA FOR LEVELS

COLLEGE PREP STUDENT

- Student is prepared to learn: materials are brought to class; student is rested and ready to concentrate on acquiring new material, every day.
- Student concentrate on language being learned, and attempts to use it in class.
- Student puts in time outside of class to read, and to do activities to speed up their language acquisition.
- Student keeps a notebook, to record and strengthen their acquisition of new language.
- Student behavior is focused on respectful learning and productivity.

HONORS STUDENT

- Student is prepared for class. Preparation includes bringing the proper materials as well as having reviewed class notes and completed the written homework.
- Student takes an active role in class, volunteering answers as well as responding to direct questions.
- Student is willing to take risks in the language, even if they are not sure of having the "right" answer.
- Student seeks out opportunities to experiment with the language, finding materials on line or listening to target language music, seeing films in the target language.
- Student tries to perfect their accent even if they may appear "silly" to others.
- Student is able to work independently and budget their time in order to complete longer projects.

Course

Number Title

413 FRENCH I

CP

5 Credits

Students can expect a beginning course in French language acquisition stressing the basic skills of listening, speaking, reading, and writing. The student acquires listening and speaking skills through in-class activities and the language laboratory. A variety of sources introduce the student to the culture and the customs of the French speaking world. Oral presentations and role-playing are a major component of this course.

Open to Grades: 9, 10, 11

422 FRENCH 2**CP****5 Credits**

As a continuation from French 1, students in French 2 acquire the basics of French language structure. Students continue to practice expressing themselves in the present tense, but also learn to tell and/or write a narrative in the past using a variety of past tenses. They can also speak of future or hypothetical events. Oral work is stressed, but a written component begins to take shape. This course offers students a glimpse into the breadth and scope of the diverse culture of the French-speaking world.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of French 1 CP.

Recommendation: 75+(C) average in French 1CP. Those students who passed Fr 1 at QMS with an average below 74 are encouraged to repeat French 1 in order to improve their proficiency level and opportunity for success in French 2.

423 FRENCH 2**HONORS****5 Credits**

Students can expect a course that includes the same objectives as French 2 College Prep, i.e. acquiring a solid grammatical base. Students have more opportunity to experiment with speaking and writing French in increasingly less structured activities. Additionally, they begin to streamline their language usage by learning to express themselves naturally by using pronouns. Reading materials, other than the text, are used to increase comprehension and vocabulary. An appreciation of the culture and customs of the French speaking people is cultivated.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of French 1.

Recommendation: Recommended for those students who have successfully completed French 1 in the Middle School with a 90

+ average or who earned a 92+ (A-) average in French 1 CP at the high school.

416 SPANISH 1**CP****5 Credits**

Students can expect a beginning course in Spanish that introduces the basic skills of listening, speaking, reading, and writing. Emphasis on the aural/oral skills is encouraged, in addition to stressing the basic grammatical patterns of the language. The student acquires these skills by use of the language laboratory and in-class activities. A variety of sources introduce the student to the culture and civilization of the Spanish speaking world. Oral presentations and role-playing are also a major component of the course.

Open to Grades: 9, 10, 11

425 SPANISH 2**CP****5 Credits**

This second year course enables the student to gain a more thorough knowledge of the language. The student acquires more use of Spanish through the creation and presentation of dialogues. This course increases the student's power to read, speak, write, and comprehend Spanish while cultivating a deeper interest in the Spanish speaking countries, their customs, and their literature.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of Spanish 1 CP.

Recommendation: 75+(C) average in Spanish 1CP. Those students who passed Spanish 1 at QMS with an average below 74 are encouraged to repeat Spanish 1 to improve their proficiency level and opportunity for success in Spanish 2.

426 SPANISH 2**HONORS****5 Credits**

This second year course conducted in Spanish enables students to become more proficient in reading, writing, speaking, and listening. Students will also learn more about Hispanic culture and acquire more ready use of Spanish through the creation and presentation of dialogues. Honors students are expected to be self-directed, seeking out opportunities to experiment with the language on-line, or with music and films.

Open to Grades: 9, 10, 11, 12

Prerequisite: Successful completion of Spanish 1.

Recommendation: Recommended for those students who have successfully completed Spanish 1 in the Middle School with a 90 + average or who earned a 92+ (A-) average in Spanish 1 CP at the high school.
